## DOG MOURNS FOR VIRGINIA RAPPE

Jeff, brindle bulldog "pal" of Virginia Rappe, film actress for whose death Patty Arbuckle will face trial in San Francisco, mourns the death of his mistress. He wanders aimlessly about the bungalow in Hollywood where Miss Rappe used to live, refusing to eat or to be consoled.

## FIREMEN ARE CALLED TO RESCUE CAT

BOSTON, Sept. 25.—Toodles is a large black-and-white Angora cat belonging to Miss Elizabeth Whalen of 27 Bow street, Somerville. Toodles has been correctly raised, and from childhood has never been allowed out of the house without proper chaperonage. This quiet and peaceful life ended on the cat, last week, consequently she took an opportunity of going on a party of her own last Friday, unbeknown to her mistress.

Friday night, however, people in the vicinity of Giles Park heard sounds emanating from a cat in distress—sowls, plaintive mewings and other nerve-rendering noises kept the citizens living around this park tossing in sleeplessness. On Saturday morning Toodles was discovered on a topmost branch of a tall tree in the park. She was unable, or too frightened, to come down.

Coaxing was no good; the cat would not move. As a result, Toodles spent a second night in the tree, and the neighborhood, during the second night, was an unwilling audience for the feline's mezzo-soprano.

Yesterday morning the residents decided that enough was enough, so they

notified the police. The police in turn notified the fire department and Ladder 1 was sent yesterday afternoon about 2.30 to the rescue of Toodles. Soon after the arrival of the ladder truck, approximately 1000 spectators gathered under the tree to witness the work of rescue, so the firemen telephoned for police aid and six or seven patrolmen were assigned to keep the crowd back.

Ladderman Israel Y. Hull ascended a 55-foot extension ladder to the branch where Toodles clung. Ladderman "Jack" McKenzie followed Hull up the ladder and supported the slender limb while Hull crawled out to the cat. Hull had provided himself with rubber gloves in case of resistance on Toodles' part, but they were not needed; she submitted to being carried back and down the ladder without fuss, beyond a last rendition of the Miceere.

At the foot of the tree, Toodles was restored to Miss Whalen, who kissed the cat while the crowd cheered. As the spectators dispersed, Miss Whalen was heard to promise Toodles "a good spanking" when they reached home.

## TOO HIGH TO ESCAPE

PORT ELIZABETH, S. A., Sept. 25.—Belita Tjiri, a native girl held on three theft charges, scaled the 20-foot prison wall during the night, but injured her hip so severely she could not move. She is in the prison hospital.

## DIRECTOR TELLS AIMS OF DAIRY UNION

BY E. R. HEATON

National Dairy Director, the American Farm Bureau Federation, is being mulcted out of millions of dollars annually by certain distributors who have boosted the retail price of milk way out of proportion in comparison to the wholesale prices paid to farmers for the product.

This practice is menacing the dairy industry all over the country and discouraging the industry generally as well.

To offset such pernicious tendencies, the farmer who has awakened to his danger, is rallying round the standard of co-operation and plans to oust profiteering milk vendors from the market by gaining complete control over the milk supply himself.

## Cause of High Prices

One reason why milk prices are so excessive, especially in the larger cities, is because the farmer has had to bear the burden of heavy surplus milk production with inadequate marketing facilities.

The large distributors were quick to seize upon this situation of helplessness and paid the dairy owner whatever they cared to for his product, and he was compelled to accept, or turn his milk into less profitable by-products.

On top of this the distributors feeling themselves a law unto themselves, demanded whatever price they could get from the ultimate consumer. This, as I have said, was and is, in nearly every instance, an unfair price and way out of bounds with the wholesale cost.

But the day is at hand when the farmer—the dairy farmer I refer to—has come to realize that if he is to keep in the business of producing milk, he must have a hand in dictating to much the consumer shall pay for it.

The dairy farmer is not posing as an altruist, but he is against unfair milk prices, because he knows that every time milk prices are raised or become excessive, the demand for milk drops, and once more his supply stands idle.

With the dairy farmer it's purely a business proposition. He is convinced that the big distributors are working to his evil and for their own good entirely.

The dairy farmer wants the public on his side and knows that he will gain such support by giving the public the milk it wants at a price that is fair.

To this end, the dairy farmer—thousands of him—is combining into a giant federalized co-operative selling union which will operate and control individual producing units scattered throughout the country.

Wherever there is a farming community that engages in milk production, we will have a branch of the co-operative plan within the next two years.

## Results of Union

Establishment of this idea on a practical basis will have these results:

One: Afford regular and constant facilities for disposal of production.

Two: Permit farmers to offer their milk on a contract or bid basis to the distributor who will retail it at the lowest and fairest margin of profit to the consumer.

Three: Give farmers financial as-

assistance in erecting equipment necessary to convert possible milk surpluses into butter and other products, thus assuring wholesomeness of output and economy of price to the purchaser such as is not the case now.

Four: Provide the protection of a national body to guarantee a fair deal to the farmer and to the public in the matter of milk prices.

Five: Elimination of unfair distributors who in most instances could bring about a reduction in milk prices by installing more efficient methods in their businesses.

But most of all, the farmer wants retail prices down. He wants to sell on a 50-50 basis of cost and profit. For he believes that if milk prices are low, the demand will be greater and he will make more money in the long run.

## WOMEN DEMAND RIGHTS

National Party Draws up

"Bill of Rights"—Want

Equal Privileges With Men

WASHINGTON, Sept. 25.—A woman's "bill of rights" proposed for enactment by the federal and all state governments to remove all legal discrimination against women, was outlined yesterday in a statement by the national women's party.

The program includes a new constitutional amendment, declaring that "no political, civil or legal disabilities or inequalities on account of sex, or on account of marriage," shall prevail together with a bill to give women the same rights, privileges and immunities as men.

It was announced that Senator Curtis, republican, Kansas, and Representative Fess, republican, Ohio, would introduce the new proposed constitutional amendment in congress Oct. 1, and that copies of the new bill had been sent to all state chairmen of the women's party except Wisconsin, which already has enacted the law.

Women have the right, upon marriage, to choose their names and have equal voice in custody of their children, legitimate or illegitimate, under the proposed new bill of the women's organization.

Other legal rights for women proposed include: suffrage, eligibility for all offices, freedom of contract; choice of domicile; residence or non-residence; service; acquisition and control of property; control of labor and earnings; eligibility for educational positions; equality in grounds for divorce and immunities and penalties for sex offenses.

All common law disabilities of women would be abrogated under the legislation.

## The New Way to End Corns

The Scientific Method

Easy, Gentle, Quick and Sure

A famous chemist, some years ago, discovered a way to end corns. A surgical dressing house of world-wide repute adopted and produced it.

Millions of people use this instant relief and quickly rid themselves of troubling corns.

The method is Blue-jay—liquid or plaster. One applies it by a touch. The pain stops instantly, and the whole corn quickly loosens and comes out.

Old, harsh methods are supplanted by it. So with corn pads, so with paring. All such ways are folly.

Try Blue-jay on one corn now and see. You will be delighted.

WARNING TO YARN USERS

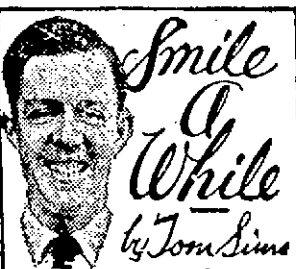

WORSTED YARN IS MADE by combing long, staple wool and spinning it into yarn. The combing process removes the short, broken fibers, leaving only the strong ones. Worsted yarn is, therefore, much stronger and garments made from this kind of yarn retain their shape and give splendid service.

THIS IS THE WAY FLEISHER'S YARNS ARE MADE

WOOLEN YARNS (shoddy) are made from the short, broken fibers which comb out in the process of making yarn. This yarn makes a satisfactory looking garment, but does not wear well or hold its shape. Woolen yarn is easily detected by testing its strength, as the fibers are very short and pull apart easily.

## OPEN SHOP A SNARE SAYS ECONOMIST

BY REV. JOHN A. RYAN

Professor of Industrial Ethics and Moral Philosophy, Catholic University, Washington, D. C.

The open shop movement as countenanced in the minds of those present day leaders who advocate it is fundamentally a lie, and opposed to the best interests of the organized worker.

The open shop idea surrounds itself with a lure of promises, but it does not come out directly and tell to what degree it will recognize the collective bargaining rights of the trade union man.

It is a snare and aimed intentionally to undermine organized labor.

## Labor's Duty

On the other hand labor must awaken to its growing sense of responsibility if it expects respect and the insurance of public confidence.

By this I mean, that labor must renounce a very late practice which has become noticeable and to some degree responsible in detracting from labor's prestige, in lessening production or minimizing it to a great extent.

Labor must get back to its former position of rendering a full day's work for a full day's pay, for such a reversal of attitude has been made very necessary, owing to the public's desire of reliance in labor's tactics.

I see but little opportunity for a cure-all for the obtaining unemployment situation save in the stimulation to business generally, which

might follow if public works were engaged upon.

## Blue Next Summer

The present depression will not lift, until some time next summer, possibly from three to four months after the opening of spring.

Prosperity and depression have the same relation in their progress to a rolling snowball.

If one industry shuts down others follow suit. If one or a group of businesses pick up, the effect is felt all along the line.

To me it seems as though the government should take the first step out of the rut, not only the national but the state governments as well, by promoting needed public improvements, and thereby encouraging a desire to industry.

What is needed most is to rid business of its timidity. Someone must take the lead.

## WOMAN SHOT THROUGH HEART IN ACCIDENT

LISBON, Me., Sept. 25.—Mrs. Fred King, Jr., 31, was instantly killed yesterday afternoon, when a shotgun was discharged accidentally, the charge striking her in the heart. Mrs. King, the authorities were told, was attempting to climb a fence when the gun trigger caught. Dr. Bill Russell of Lewiston, medical examiner, pronounced death due to accident.

## The safe way to wash fine fabrics

Tests made by leading makers of delicate fabrics

WITH the greatly increased use of sheer fabrics and very delicate colors in the last few years, the manufacturers of silk materials and garments have met a serious problem in the way women laundered them.

Incorrect washing methods and the use of wrong soap products have ruined numberless garments, and brought the manufacturers many complaints.

Leading manufacturers of fine silks, woollens, and sheer fabrics, have recently made careful investigation of the laundering of their special products.

As a result of these investigations they unqualifiedly recommend Lux.

## ATTEMPT TO KILL HEAD OF POLISH REPUBLIC

LEWISBURG, Sept. 26. (By the Associated Press)—Gen. Joseph Pilsudski, president of the Polish republic, narrowly escaped death by assassination here last night. He was entering an automobile in City Hall square on his way to a theatre after attending a banquet in his honor, when three shots were fired at him. Gen. Pilsudski was not injured, but Count Grabowski, who was accompanying him, was wounded in the leg.

The assassin directed his chauffeur to drive to a hospital and, after being assured that Count Grabowski's wound was not serious, insisted on going to the theatre as he had intended. He was enthusiastically cheered by the audience when he entered.

The would-be assassin attempted suicide, but was arrested before he could end his own life.

## YEAST BEST WHEN TAKEN WITH IRON

If Weak, Thin or Rundown  
Try This New Treatment  
in Tablet Form—Watch  
the Quick Results

Everyone has heard of the apparent wonders performed by yeast in restoring thin, sickly, and run-down people to health. And now it is found that even more surprising results are brought when yeast is taken with iron, the great blood-builder.

People who for years were weak, pale, anemic, and all run-down are regaining their strength and health almost as if by magic through this remarkably effective combination because it is richer in vitamins.

Vitamins, as we all know, is the mysterious element which Science has found to be absolutely essential to health. Due to modern methods of food preparation, vitamins are lacking in most of our commonest foods—and that is why so many of us become sickly and run-down.

If you are suffering from loss of strength, if you frequently become exhausted, if your food has no taste for you, or if you are irritable, thin, pale, nervous, or generally run-down, then try this remarkable new tonic.

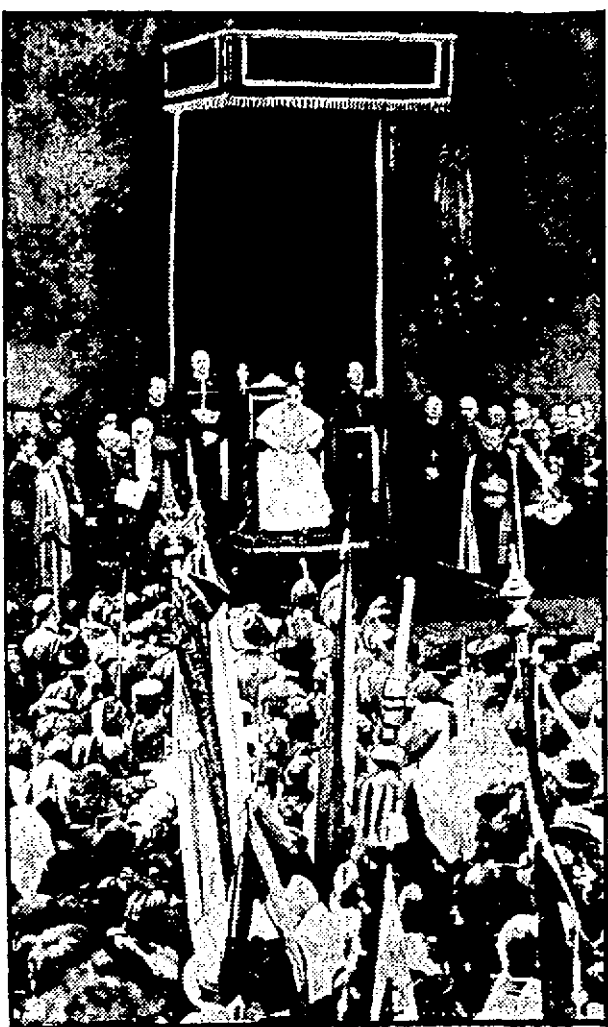

Ironized Yeast will in most cases bring a decided improvement within three days. It will usually clear up shallow or muddy complexion within ten days. From everywhere come enthusiastic reports of what it is doing for people.

It is packed in patented San-lap packages and will keep indefinitely. Its cost is no more per dose than common yeast. Each package contains 10 days' treatment and costs only \$1.00—or just 10¢ a day. Special directions for children in each package. Made by the Ironized Yeast Company, Atlanta, Ga.—Adv.

## BANISH MOONSHINE

Strong Appeal by Rev. Fr. Heffernan at St. Peter's Church Yesterday

At one of the early masses at St. Peter's church yesterday Rev. Fr. Heffernan preached a strong sermon against intemperance, and appealed for the strict observance of the prohibition law. He stated that the bootleggers have been busy in the precincts of St. Peter's parish and unfortunately too many people had been led into purchasing and drinking the poisonous stuff thus dispensed. He cited the evil effects of drinking this poisonous liquor, showing that it brought on blindness and many other evils, where it did not actually cause death. He exhorted the people of the parish to avoid the bootleggers and not to risk their health or even their lives by drinking "moonshine" or any of the other concoctions now offered for sale for the purpose of producing intoxication.

From the rectory of St. Peter's church a few days ago, Rev. Dr. Keleher and the other clergymen witnessed an exhibition of the dreadful effects of "moonshine" on those who drink it. Five men came along the walk on the South common and sat down near the Edison school. There they began

drinking what was supposed to be "moonshine" from a bottle. The effect on all five was watched with curiosity and something of alarm. In less than ten minutes, two of the men showed signs of helpless intoxication and were unable to stand. Two others were barely able to make their way off the common in about 15 minutes after they had drunk from the bottle. The three who remained were helplessly drunk and they appeared to lose all power of their lower limbs. Altogether they were a most pitiable sight. This was but one of many such exhibitions that may be seen from time to time on the common. It was scenes of this kind as well as others that led Rev. Fr. Heffernan to make such a strong appeal to his congregation to keep away from the bootleggers, let "moonshine" alone and show a proper respect for the law.

"Tanlac has produced such wonderful results in our home that we wouldn't think of being without it in our medicine chest," said Thomas J. Schuyler of 39 Westrick st., Boston. Mr. Schuyler operated in shoe repairing shops, and has resided in Boston for forty years.

"For nearly four years I had been in terrible condition with stomach trouble. Whenever I ate anything I was bound to suffer afterwards, and I not where I just dreaded to go to the table. Indigestion, bloating, shortness of breath, and severe pains in the pit of my stomach simply made life miserable for me. I couldn't half sleep at night either, and was so weak and used up that I was just about 'all in.' But a few bottles of Tanlac has just the same as made a new man of me. For it has rid me of all my troubles, and made me feel thirty years younger. My stomach is in as good condition as when I was a school boy, and I never knew what stomach trouble was then. I sleep so sound at night that I don't wake up until someone calls me to breakfast. Why, I never felt better in my life than I do now, and my wife has gotten wonderful results from Tanlac, too. We both think it's the best medicine under the sun, and are all the time telling our friends about it."

## TRUCK AND CAR COLLIDE

Early Morning Accident in  
Westford Street Causes  
Damage to Electric

No-Accident Week got a rather inauspicious start today when a few hours before the mill bells and whistles of the city shrieked the announcement that the safety campaign was on, a collision occurred at the junction of Westford and Windsor streets.

A New Hampshire truck, thought to have come from Nashua, was coming through Windsor street toward Westford at 6.45 when an out-bound Westford street electric was just about to approach the street. Edward Lussler, one of the oldest motormen employed by the local branch of the Eastern Massachusetts Street Railway Co., was operating the car and claims to have stopped as soon as he saw the oncoming truck which attempted to pass in front of him. The forward part of the truck got out of danger in time, but the rear end hit one corner of the electric and did considerable damage. There was but one passenger in the car and nobody was seriously injured. Operator Lussler received a few minor injuries from flying glass. However, he was able to continue work.

The collision held up traffic for a short time. The damaged car was taken to the end of the line and replaced by another.

## AMUSEMENT NOTES

(By Theatres Own Press Agents)

**R. F. KEITH'S THEATRE:**  
For the annual visit of Will M. Cressy and Blanche Dayne to the R. F. Keith Theatre, this week, Mr. Cressy's latest comedy playlet, "With-By-Will There's a Way" will be presented.

The announcement that Cressy and Dayne are to be with us for a week ought to come pretty near to packing the theatre twice daily. This pair of strolling players folk annually make a tour of practically all of the big vaudeville theatres in the country, and everywhere they are received with great acclaim. There is a certain love goes out from audiences to them, for for many years they were personally identified with the late Denman Thompson in "The Old Homestead."

Mr. Cressy played the part of "Old Prime" for a long time, while Miss Dayne was the "Ricketty Ann." Since leaving the legitimate stage Cressy and Dayne have played from coast to coast many times in the inimitable playlets which Mr. Cressy has written. They are based on human themes, with the most delicious of comedy interludes, and they are always perfectly presented. They are everywhere recognized as headliners, and furnish a perfect timeline attraction for this week's very good bill.

Joe Darcey, who is second attraction on the week's bill to known far and wide as the singing songwriter. One of his greatest hits was the one called "Oh, Lala, Oh, Lala" while another has been "Sing Me to Sleep, Dear Old Mother of Mine." Darcey writes half a dozen new numbers each year, and puts them over in vaudeville. Incidentally he is a comedian of more than average worth.

Herman and Shirley will bring their novelty of novelties, "A Mysterious Masquerade" to the theatre for this very good bill. Played in the form of a comedy, it is nevertheless a novelty production which isn't repeated in its essence until the very end. There are some most unusual happenings during the time it is being played.

At Hays and Earl layover introduced their whirling dervish routine and acrobatic numbers under the title of "Two Friends Who Can't Get Along," and Allen and Cantor are two girls

## OPERA HOUSE

One of the most absorbing and highly dramatic stock offerings of the whole season is scheduled for presentation by the new Lowell Players at the Opera House for the week beginning with the first performance to-night, "Dangerous Love," a play filled with love, mystery, thrills and all of the elements that go in the making of a genuinely successful stage vehicle. It is the creation of Charles E. Blaney and Norman Houston and is in three acts. It's a play with an extraordinary theme, daring in its delineation of character and unfolding the secrets that all women keep locked up in their hearts. It is sure to win the commendation of all. To reveal the story would be depriving theatre-goers of the pleasure that will be theirs. Suffice it to say that it is a gripping, tense and human recital of the events of the present day and could easily be duplicated in many homes. If you are a woman you will sympathize with the girl character and you will marvel also at her sacrifices and generosity in her indulgence in "Dangerous Love." A life is at stake—the life of one she loves better than her own and she shows true womanhood in her actions.

When the play was originally produced at the Republic Theatre, N. Y., John Ravold, local dramatic supervisor of the Lowell Players, had the supervision of it, so that there is no one better fitted today to present it locally. He will give it careful attention and should refine and gain his unusual and artistic capabilities as a producer-director. Many of the boys who had experiences overseas can testify to cases similar that develop in "Dangerous Love." It has other phases of life that appeal to all.

Ladies special "two seats for one price" tickets will be issued for Monday night's performance only. Tickets for the week's performances are sell-

ing fast and it's advisable to make your reservations as early as possible. Better still place your name on the subscription list. It costs no more and you will be better satisfied.

## RIALTO THEATRE

The public will welcome the glad news that the Rialto theatre is opening up once more. The theatre has been remodeled and painted and the interior has been made to look like new and this afternoon Manager Prager will throw the doors open for public approval. Manager Prager has secured for his leading attraction the Spanish play "The Passion Flower," with Norma Talmadge starring in the leading role. It is a picture you will all want to see and, coming with the fall opening of the theatre a crowded house should be the result. "The Passion Flower" is released through the Associated First National Pictures.

## THE STRAND

Apart from the regular picture program at The Strand for the first three days of the week, starting with matinee today, will be the first local showing of the wonderfully interesting Shevlin-Kloby light pictures taken at Salem recently. This added attraction will surely prove interesting to the patrons and should serve as a novelty to the women folk of Lowell and vicinity. During the past two years large numbers of the "fair sex" have been attending these "demonstrations of the many art of self defense." Lowell women will have the first opportunity of seeing a championship bout in pictures.

The regular bill will include the big Rex Beach comedy drama "Going Some," and Harry Carey in "Desperate Trails." Both are excellent photoplays, and the usual comedy and Weekly will also be shown. It's a big program and one that will surely appeal to all classes of patrons. Remember that this special program is for the first three days of the week.

MERRIMACK SQUARE THEATRE

One of the strongest and most de-

lightful photoplays in which Thomas Meighan, noted Paramount star, has been seen this season is "Cappy Ricks," the feature attraction at the Merrimack Square theatre for the first half of the week. Mr. Meighan is seen as a seaman in a colorful, dramatic and thrilling story. It is a picture of Peter B. Kyne's story of the same name. The other big feature for the first part of the week is "The Golem," a wonderful European production, depicting a celebrated legend of medieval Europe. A comedy and the International News.

## MOONSHINE STILL IN BERKSHIRES

PITTSFIELD, Sept. 26.—Federal Prohibition Officer Henry E. Foley, in a raid on a Russian settlement in the wilds of Washington yesterday afternoon, discovered the first mountain moonshine still found in this section of the Berkshires. He arrested two men on charges of illegally manufacturing liquor.

At the home of Henry Arndt, where 10 gallons of moonshine were found, the federal officer followed a trail back into the mountain, where he found a still in a tent. About 100 gallons of mash and a barrel of molasses were seized. At the home of John Combs, 200 more gallons of moonshine, a still in full operation, three gallons of mash and three barrels of molasses were found.

## PARIS ROBES FOR WEAR AT HOME

NEW YORK, Sept. 24.—There seems to be a direct line between my lady's boudoir and Paris.

Never has the robe d'intérieur, the house gown, the tea gown, the room gown been seen in such elaborate and beautiful design and detail.

One room gown for lounging, of yellow Salome velvet, is trimmed in natural monkey fur of white and black. A French drape made in two pieces, forms a "V" neck in the back line. The drape fastens at the side with an original gathered effect, finished with three huge chenille tassels.

Another original breakfast negligee (right) is of heavy rose crepe de chine with lilted skirt.

The girdle is of silver roses. But the unique effect is the breakfast cap which ties with acorn-shaped tassels.

A gown quite lovely enough for home teas and dinners, is that on the left. It is mulberry brocade velvet combined with georgette. It has jet beading, flowing georgette cape and sleeves, and graceful side drapes.

small box of the dope which will be used as evidence.

Wong, in court this morning, asked for a continuance and was given until next Thursday to prepare his case.

The raid on this place was the result of many weeks of constant watch on the part of members of the vice squad who say girls were in the frequent habit of entering and leaving the place. When they entered the room Saturday night the officers expected to find men and women in the place besides the supposed owner, but to their disappointment only found the Chinaman. He was lying in bed peacefully puffing at his opium pipe, the police say. Since last summer when federal officers seized a good quantity of opium in a house on Lee street, the local police have been on the close lookout for like offenders. The place raided Saturday night was one of several under suspicion.

**Free-for-All Fight**

As a sequel to a near "free-for-all" in Liberty square Saturday night, Frank E. Normande was in court charged with assaulting an officer, besides being charged with drunkenness, and Jas. McTiernan was arraigned for interfering with a police officer. The two were allowed continuances until Oct. 1. Officer Mahan, the patrolman subject of the assault, in an interview with a Sun reporter stated that he was arresting Normande for suspected larceny when a gang of about 25 young men swarmed around him and attempted to rescue the prisoner.

He said Normande, who was under the influence of liquor, kicked him and punched him in the face. Mc-

Tiernan tried to interfere with the officer's execution of the arrest, the police allege. Patrolman Mahan could not disperse the crowd, he stated, until he drew his gun and fired one shot in the air threatening to shoot at the gangsters if they didn't disband. He succeeded in bringing the prisoners to the station with the help of several other officers who were attracted to the scene. Officer Mahan showed the court injuries he sustained about the face and head at the hands of the alleged ruffians.

**For Non Support**

The non support charge against Theodore Bramowski was continued until next Friday.

Although thirteen arrests for drunkenness were made over the week-end and only seven were haled into court, the others having been granted another opportunity to tread a straight path. Stanislaw Janocha didn't object to paying a \$10 fine in lieu of drunkness, but Fred L. McDowd and George Burney appeared from sentences of two months to the house of correction. It availed the former naught to plea with Judge Enright to give him a chance to finish a certain job he had undertaken in Lowell, promising at the same time to leave the liquor alone.

**Soldier's Sad Plight**

John J. Healey, a soldier, in for intoxication, requested the court to allow him to rejoin his regiment, which he said, was under orders to leave for New York today or tomorrow. But when Patrolman Mahan told the judge that he arrested Healey after a milkman had reported to him that he had run over the soldier's unconscious body in the small hours of the morning, the court ordered the defendant held until tomorrow, while police authorities would notify the soldier's superior officers of his arrest. "If they don't come after him by tomorrow, I'll send him to the house of correction," concluded the judge.

A drunk charge against Albert Scales was postponed to Thursday.

**Drunk On Motorcycle**

Stanley Padnapski, charged with drunkenness and with operating a motorcycle while under the influence of liquor, apparently was all set for trial, but when the court, through an interpreter told him that he was under arrest for a serious offense and might be sentenced to the house of correction and asked him if he didn't want a continuance so that he might obtain counsel, Padnapski replied he would like to secure a lawyer and requested the case put over to October 14. The court granted the request.

campaign is being handled chiefly by the chamber of commerce in co-operation with the police, mills, municipal officials, street railway company and various organizations. The week's program will include lectures by traffic officers, talks in the schools and various other means whereby the public will be made to realize the necessity of care in order to avoid accidents.

A large consignment of posters has reached the city and with the assistance of Boy Scouts the campaign authorities have succeeded in distributing them in all parts of the city.

One of the unpleasant features of the day, which somewhat marred the success of the opening of the campaign, was the serious accident in South Lowell a few minutes after the bells and whistles had sounded when a man was struck by a train near the entrance of the U. S. Cartridge Co. plant and seriously injured.

NEW YORK, Sept. 26.—The Staten Island police today started search for the 47-foot gasoline cruiser Myrtle which left Stapleton yesterday for fishing banks near Ambrose channel with Captain John Cleane and a party of 35 persons. The boat was due back last night. Relatives asked that search be started.

has reported to the chamber of commerce, that in Lowell during the past 12 months, from Sept. 1, 1920, to Aug. 31, 1921, inclusive, a total of 69 persons have been killed by accidents. This makes an average of more than five persons killed every month for the past year.

It is such figures as these that bring home the seriousness of the situation and the necessity for such a campaign as that while get under way today. In 1915 there were only four fatal automobile accidents here, while in 1919 the number had increased to 21. The slogan of the campaign is "Don't Get Hurt." This slogan will meet the eyes of people in all parts of the city. For instance, at the entrance to the rooms of the Knights of Columbus there is a big poster urging members to "watch their step" and to exercise caution in avoiding accidents. A similar poster adorns the entrance to the Y.M.C.A. Other organizations are also falling into line.

At the suggestion of Supt. Molloy, the local schools are taking a prominent part in the safety campaign by means of daily instruction in safety first measures, the appointment of safety patrols, etc.

## CLASSES AT MASS. MILLS

Plan for Continuation Work  
Under Way—University  
Extension Classes

The continuation classes under the auspices of the Women's Industrial club of the Massachusetts, which were conducted with great success last fall and winter, will be resumed this week and continued until the latter part of December. The classes will include millinery and dressmaking and later domestic science will be taken up.

On Wednesday night of this week the millinery classes will open in the quarters of the club in one of the mill buildings and will continue every Wednesday evening until the latter part of December. These classes will be under the personal direction of Miss Benson. On Oct. 2 the dressmaking classes will be resumed. These classes will be held every Monday night until Christmas week. It is also proposed to conduct a fancy bag making class in November, this work to be under the direction of Miss Benson. As soon as it is possible a class in university extension courses which will include elementary accounting will be started and conducted. The instructor for this course will be named later. The registration for the millinery and dressmaking classes is by far better than was expected. As much as 20 young women, it is said there will be a waiting list.

Employees of the spinning department of the mill are making arrangements for the first session department dance, which will be held in the quarters of the club Friday evening, Sept. 30. A special entertainment will be given by talent of the mill, while music for dancing will be furnished by the mill orchestra of five pieces. The committee in charge of arrangements consists of Overton, John, Chetum, Jas. Bowen, James Ryan, Patrick Nevin, I. Matthews, P. McLaughlin and W. Wilson.

## FOR EVENING CLASSES AT LINCOLN SCHOOL

With the purpose of providing a place for residents of the vicinity to receive instruction in English, oral and written, arithmetic and other elementary subjects necessary for entrance into evening high school, and the civil service positions in the lower grades, also dressmaking and millinery and home nursing for women, workers are striving to have the Abraham Lincoln grammar school opened evenings this winter. The school is shown, they can succeed in their mission. Therefore, they invite all people interested regardless of age, especially foreign born of all ages, to come to the Lincoln school tonight between 7 and 8 p. m. to obtain information and to register their names to secure the evening school, which would be such a great convenience for those who must attend or those who come voluntarily, 20 names for each class in English and elementary subjects must be obtained, while 16 must be had to start the work in the millinery and dressmaking. Registration must be made, if possible, tonight.

## EVENING HIGH SCHOOL REGISTRATION

Registration for admittance to the Lowell evening high school will be resumed at the school office in Kirk street this evening at 7 o'clock. Both new and former students may register either tonight, Tuesday night, Thursday night or Friday night between 7 and 8 o'clock. The school opens Monday, Oct. 2.

## BRYAN TAKES A HAND, DEFENDS BEER BILL

WASHINGTON, Sept. 26.—(Formal declaration of a truce in the senate fight over the anti-beer bill and its search and seizure clause is expected today. Suspension of hostilities is to last a few weeks, according to the present outlook, or until the senate disposes of the tax revision bill and the German, Austrian and Hungarian peace treaties.

When the tax bill was called up today, Sen. Bryan, who has been conferring with opponents of the bill at the capitol, to prevent the enforcement of a constitutional provision as could be imagined, especially a constitutional provision which outlaws a criminal traffic.

Mr. Bryan commended the search and seizure clause in the conference report. He said that the clause was a necessary part of the bill, and that it was not a search and seizure without warrants. "To require a warrant before searching a suspected automobile," said Mr. Bryan, "would practically nullify the law. The auto could get into another country, and the government could be subject to search without warrants."

## CATHOLIC NEWS

The annual collection for the diocesan charities will be taken up in all the local Catholic churches next Sunday. Two Lowell charitable institutions, St. Peter's orphanage and the French-American orphanage, will benefit by the collection. Members of the Junior Holy Name society of St. Patrick's church received communion at the 8.30 o'clock mass yesterday. Large numbers of the faithful received communion at the 7 o'clock mass celebrated by the Rev. Fr. William O'Brien, P.F. The Holy Name society and the C.Y.M.I. will receive communion in a body next Sunday.

The senior branch of the Children of Mary sodality and the Junior Holy Name society received communion at the 8 o'clock mass at the immaculate Conception church yesterday. At the 8 o'clock mass at St. Peter's church members of the Children of Mary sodality received communion. Rev. Francis I. Shea was the celebrant and Rev. Peter T. Linehan assisted in giving communion. October devotions will open in this church next Saturday evening.

The feast of St. Michael will be observed at St. Michael's church next Thursday with a mass at 8 o'clock. The children of the parish will attend in a body. On Sunday, October 9, a collection will be taken up in this parish for the new school fund. The Children of Mary of the Sacred Heart parish received communion at the 7.30 o'clock mass at the Sacred Heart church yesterday. Rev. William McFadden, O.M.I., was the celebrant.

The early mass at St. Margaret's church yesterday was celebrated by Rev. Fr. Brennan and the late mass by Rev. Charles J. Golligan, the pastor. Rev. Stephen G. Murray celebrated the 9 o'clock mass. Rev. John Hogan celebrated the early mass at St. Columba's and Rev. Fr. Somers the late mass.

## LOWLY CORN COB RISES TO DIGNITY

WASHINGTON, Sept. 26.—The lowly corn cob has risen to the dignity of a valuable by-product. It now holds an important place in the chemical world, because of a popular derivative.

In experimenting with the corn cob, experts in the department of agriculture found that it contained a plastic that could be utilized as a binder in the manufacture of fiber board and gill board. The residue left after the paste had been made was found to contain approximately 10 per cent. of high-grade furfural, one of the basic products in the manufacture of coal tar products, ranging from dyestuffs to photographic laboratory materials.

Before the world war Germany had a monopoly on furfural and demanded \$2 a pound for the derivative. America can make it from the corn cob for a more reasonable price.

## SOCIALIST SCHOOL TO DEFY LAW

NEW YORK, Sept. 26.—The Socialist school of Social Science was scheduled to open here today in defiance of a new state law requiring instructors in all private schools to obtain licenses. Algernon Lee, director of the school, characterizing the law "an attempt at un-American censorship," declared he stood ready to accept the 60-day jail penalty provided for its violation, rather than submit to it.

Four members of the board of directors of the American Socialist society which governs the school, resigned yesterday following adoption by the board of a resolution affirming adherence to the position of the socialist party which refused to sanction the program adopted by the Third International at Moscow last July. They indicated they would join the communist party.

## DATES BACK TO 2500 B. C.

PHILADELPHIA, Sept. 26.—Preliminary drifts through the citadel of the ancient city of Beth-Shan in northern Palestine have resulted in cutting through in one place the strata of seven or eight cities and have reached the pre-Semitic period of about 2500 B.C. Dr. Clarence S. Fisher, head of the University of Pennsylvania Museum's Palestine expedition, reported in a letter made public today by the museum.

Dr. Fisher reports the site one of the most promising for archaeological research he has ever found in the Near East and he expects the excavations to throw much light, not only on Biblical times, but on those more than a thousand years before Abraham.

## Adventures of the Twins

A FAVOR

ALL THE SHRIMPS AND PRAWNS STREAMED OUT INTO THE SEA

Nick had an idea. He had been thinking hard all the time that Mr. Flatfish Flounder was talking about losing his fine dinner in the fish net. He spoke up now. "Very well, Mr. Flounder, you may have your dinner, but you'll have to get it for yourself, Cap'n Pennywinkle only wants the net anyway. I didn't know that it was so full of things."

"Thereupon Nick suddenly released his hold upon the fish net and all the shrimps and prawns and crabs, and the rest of the streamer out into the sea. And you may be sure that it didn't take them a day and a half to get out of that. Oh they skidded in all directions, calling their thanks to the twins over their shoulders, while old greedy Mr. Flatfish Flounder was fishing his all in a fury."

"Here, now!" he cried, "just see what you've done! You've ruined my luncheon completely. Didn't you know that the net you are taking away with you is my dining room? I know

how to get into it and how to get out and three times a day I go and feast on Mr. Flatfish's catch. What shall I do now?"

"You'll have to hunt your dinner," said Nancy, calmly. "And I think you ought to thank us, for some time sooner or later, Mr. Flatfish would have hauled you in when you weren't looking, and that would have been the end of you."

"Oh," said Mr. Flounder, "I'm not good to eat. Mr. Flatfish doesn't want me, you may be sure."

"Perhaps they'd put you in a glass case for folks to stare at," suggested Nick.

But Mr. Flounder swam away without replying, wiggling his whip of a tail in contempt.

The twins took the net to Cap'n Pennywinkle, kind that they had been able to do the shrimps and prawns a favor.

## TO CALL ON HARDING

Ledoux on Way to Washington to "Sit on Threshold of White House"

NEW YORK, Sept. 26.—Urban Ledoux, champion of the unemployed, was on his way to Washington today to "sit on the threshold of the White House" until he persuaded President Harding to publish a list of 100 per cent. war profiteers, with a demand that they contribute half their gains for constructive welfare work.

Whether he actually planned to camp on the president's doorstep, or was speaking in a figurative sense, Ledoux did not make clear.

Ledoux brought his efforts in New York to a close last night with a "community sing" in Central park.

## KIMBALL SYSTEM EMPLOYEES' OUTING

The employees of the Kimball system enjoyed their annual outing at the grounds of the Genoa club in Tynsboro Saturday afternoon. There was a large attendance and all presided by a most enjoyable afternoon. Upon arriving at the grounds the excursionists were served a buffet luncheon and later a ball game was played between teams composed of members of the commercial and advertising departments, the latter winning by a score of 15 to 11. Commissioner Sargent acted as umpire. At the close of the ball game a clam bake was served and later sports events were held, the winners being as follows: 100-yard dash, Carl Engel, first and Raymond Gates, second; running broad jump, Carl Engel, first and Raymond Gates, second; shoe race, Fred Robinson, first and Charles Maher and Tom Salmon, tie for second; cigar race, Richard Magrath, first and Fred Magrath, second. The affair was in charge of Rudolph Lefebvre and Dick Magrath.

## FIRE AT NASHUA

NASHUA, N. H., Sept. 26.—Fire in the Tremont house at midnight Saturday night caused \$2000 damage to the variety store of W. A. Economou and \$500 to the barber shop of Henry W. Munsey. Frank Hamlin is lessee of the block.

## THREE DIE IN BELFAST RIOTS

BELFAST, Sept. 26.—(By the Associated Press)—Two persons were killed and 30 wounded in rioting here Saturday night during which bombs were thrown. Two children playing in the streets and a girl were fatally wounded by stray bullets during the affray.

The girl was wounded when the police and military fired on crowds of people in Seaford street.

Eighteen of the persons wounded were taken to the Victoria hospital and the other 15 to the Women's hospital.

During the fighting a saloon was burned.

One bomb was thrown in the Millwater road, which is outside the area that has been concerned in the rioting. Six persons were wounded here, two of them seriously.

One version of the earlier bombing in East Belfast is that a Unionist crowd threw a bomb into a combination liquor and grocery store in order to set it on fire, and that while they were carrying out the operation they were made the target for a republican bomb.

Military reinforcements arrived in Belfast yesterday afternoon and vigorous measures to quell the disturbances are expected.

The wounded girl died last night, making the total of deaths yesterday three.

Sinn Feiners Roughly Handled  
CORK, Sept. 26.—(By the Associated Press)—According to reports made by republican leaders, officers, incidents occurred Saturday night and early yesterday morning reminiscent of the conditions that prevailed prior to the signing of the truce.

A party of citizens returning from a social gathering is reported to have been halted in McCurtain street and roughly treated by members of the British constabulary. At the same time, according to the reports, a police patrol of five men was attacked on St. Patrick's bridge by a large patrol of British police.

The republicans are alleged to have been questioned and called "Irish swine" and assaulted with batons and revolver-butts. One man was stabbed in the arm with a bayonet, necessitating treatment in a hospital.

## DR. NANSEN DENIES RESIGNATION

GENEVA, Sept. 26.—(By the Associated Press)—Reports in circulation here this forenoon that Dr. Fridtjof Nansen of Norway had resigned as commissioner for Russian relief of the International Red Cross because of what he deemed the unfavorable attitude towards his work taken by a sub-committee of the League of Nations, were later denied by Dr. Nansen himself. He said he had decided not to resign, but to fight out the question in the full commission and then, if necessary in the assembly of the league.

The sub-committee to whose action Dr. Nansen took exception, decided not to ask the assembly to appeal to the nations of the world for funds to feed Russia, as requested by Dr. Nansen.

Dr. Motta of Switzerland, explained that the commission took the action it did because it considered the allied conference to meet in Brussels Oct. 6 to consider Russian relief was the proper body to take up the appeal to the world.

## Gen. Pershing Visits Battlefields

CHAMMONT, France, Sept. 26.—General John J. Pershing, who spent Sunday at this town, which was his headquarters during the world war, left for Rome at 11 o'clock this morning. The general planned to spend a few hours going over the various battlefields in the Verdun area before proceeding to Coblenz, the headquarters of the American army of occupation.

## Order Restored In Belfast, Ireland

BELFAST, Sept. 26.—(By the Associated Press)—Belfast was quiet this morning, a half dozen shots fired on the Newtown road being the only outward indications of the excited feeling aroused by the disturbances of Sunday night, in which several bombs were thrown, three persons being killed and some two score wounded during the rioting. Fears were expressed, however, that there would be action in reprisal for the bomb throwing and the resulting deaths unless the military took vigorous action to suppress disorderly tendencies.

## Demand Japan Fix Withdrawal Date

TOKIO, Sept. 26.—(By the Associated Press)—Delegates of the Far Eastern republic engaged in the conference with Japanese representatives at Dairen are insisting that Japan fix a definite date for withdrawing her troops from Siberia. The Japanese delegates, however, hold that while this country is disposed to evacuate eastern Siberia, it does not desire to make its withdrawal conditional upon a treaty with the Far Eastern republic.

## MASSACHUSETTS MILL CLUB

A successful outing under the auspices of the Massachusetts Mills Educational and Social club was held Saturday afternoon at the Martin Luther grounds in Tynsboro. The affair was attended by about 70 members of the club, who made the trip to the grounds in automobile trucks and private machines. In the course of the afternoon a program of sports was carried out. In the soccer games Capt. Eldredge's team defeated Capt. Potter's quintet, while the team in charge of Capt. Rostrom won over the aggregation headed by Capt. Boyle. A feature of the afternoon games was the match between teams captained by Mr. Stewart and Mr. A. B. Eldredge, the former winning the contest. In the latter part of the afternoon a clam bake was served. The committee in charge consisted of O. Webster, Robert Rostrom, Patrick Nevin and James Bowen.

Boston Postoffice Team Wins  
From Lowell K. of C., 11 to 5

The Lowell K. of C. team, after playing classy baseball all season had an off day Saturday against the fast traveling Boston Post Office team at Spaulding Park and was buried by a score of 11 to 5.

Jim Davidson, who had rolled up a string of 10 victories for the local Casays was plastered rather freely by the Hub batsmen. 19 safeties being collected off his delivery. He received poor support in the field and this may have caused him to lose some of his stuff and confidence. Poor base running and fielding all contributed to the local team's defeat. It was a poor day all around and one of the off days all teams are apt to have. The game play by play follows:

**First Inning**  
Boston—McAuliffe singled to right; Kelly sacrificed. McAuliffe on second. Watkins bunted. Devlin dropped throw from Andrews. McAuliffe on third. Roach batted down the first base line and Devlin's throw to the plate was late. McAuliffe scoring. Harrington struck out. Norton drew a base on balls. Costello struck out. One run, one hit, one error.

**Lowell**—Daley greeted Andrews with a slashing single between third and short. Bracken struck out. But Daley stole second on the play. Roach's throw hit Daley in the head and knocked him out. Time was called. After a few minutes play was resumed. Harris fouled in the air but Roach dropped the ball. Harris was passed. Sullivan struck out. Desmond struck out. No runs, one hit, one error. Score: Boston 1, Lowell 0.

**Second Inning**  
Boston—Daley was thrown out. Davidson to Devlin. Andrews singled over Bracken's head. McAuliffe fled out to Arthur. Kelley tripled to the left field fence, scoring Andrews. Watkins walked. Desmond dropped Roach's easy pop foul. The batter then fouled out to Arthur. One run, two hits, one error.

**Lowell**—Arthur singled to left field. Devlin sacrificed. Arthur taking second. Andrews being credited with the put-out. McAuliffe made a nice catch of Reynolds' short fly. Davidson singled to right field. Arthur scoring. Daley fled out to Costello. One run, two hits, no errors. Score: Boston 2, Lowell 1.

**Third Inning**  
Boston—Harrington dropped a Texas League into right field, but was put out at second when he tried to stretch the hit into two bases. Arthur to Bracken. Norton singled over Harris' head and then stole second base. Devlin made a maul of Costello's easy fly. Daley shot a single to center. Norton scoring. Costello taking third on the throw in. Daley went to second unmolested. While Bracken was throwing out Andrews at first, Costello scored. McAuliffe popped out to Harris. Two runs, three hits, one error.

**Lowell**—Bracken was thrown out. Daley to Harrington. Harris tripled to the far corner of the left field fence. Sullivan scored Harris with a sacrifice fly to left field. Desmond bounced a single off Andrews' glove. He was out stealing second. Roach to Kelley. One run, two hits, no errors. Score: Boston 4, Lowell 2.

**Fourth Inning**  
Boston—Kelley singled on the ground through second. Watkins sacrificed. Davidson to Devlin. Kelley overran second base and was touched out by Harris when he attempted to run to third. Roach singled to right-center and stole second. Harrington hit a fly which fell between Bracken and Sullivan. The hit going for two bases. Roach scored on the hit. Norton struck out. One run, three hits, no errors.

**Lowell**—Arthur fled out to McAuliffe. Devlin hit a liner too hot for McAuliffe. He was safe at first. Reynolds bounced a weak single into right field. Devlin taking second. Davidson grounded out to Harrington. Daley was thrown out. McAuliffe to Harrington on a close play. No runs, two hits, no errors. Score: Boston 5, Lowell 2.

**Fifth Inning**  
Boston—Costello was thrown out. Bracken to Devlin. Daley shot a single over second base. Daley was hit by a foul tip. Andrews was passed. McAuliffe scored. Andrews at second. Devlin to Bracken. Daley taking third. Kelley fled out to Daley. No runs, one hit, no errors.

**Lowell**—Bracken struck out. Kelley batted Harris' grounder, the batter being safe at first. Catcher Roach was hit by a foul tip and the game was delayed a few minutes. Harris stole second base and when Roach threw the ball to center field the runner made third. Norton threw poorly to the infield, the ball getting away from Andrews. Harris scoring. Sullivan struck out. Desmond was passed. Arthur singled to deep short. Devlin fled out to Watkins. One run, one hit, two errors.

**Sixth Inning**  
Boston—Watkins drew a base on balls. Arthur made a pretty running catch of Roach's short fly. Harrington forced Watkins at second. Bracken to Reynolds. Norton beat out an infield hit to Bracken. Costello struck out. No runs, one hit, no errors.

**Lowell**—Reynolds struck out. Davidson singled to center. Daley lined another single to right. Davidson going to third. Daley stole second. Davidson singled to left field, scoring Davidson. Daley took third. Bracken stole second. Harris struck out. Sullivan was called out on strikes. One run, three hits, no errors. Score: Boston 5, Lowell 4.

**Seventh Inning**  
Boston—Daley fouled out to Harris. Andrews singled off Bracken's glove. McAuliffe doubled to center. Daley dropping the ball after a long run. Andrews taking third. Kelley fouled out to Sullivan. Watkins singled to left field, scoring Andrews and McAuliffe. He took second on the throw to the plate. Costello, and scored on Roach's single to right. The ball rolled between Arthur's legs and Roach reached third. Harrington fled out to Daley. Three runs, four hits, one error.

**Lowell**—Desmond was hit by a pitched ball. Arthur singled past third base. Desmond reaching second. Devlin forced Desmond. Kelley to Daley. Harrington made a fine catch of Reynolds' foul fly. Norton pulled down Davidson's long fly. No runs, one hit, no errors. Score: Boston 5, Lowell 4.

**Eighth Inning**  
Boston—Norton singled past third base. On the hit and run Costello popped a fly to Devlin, who doubled. Kelley at first. Daley sin-

gled to center and stole second. Daley scored on Andrews' two-bagger. Centre. McAuliffe singled to light field, scoring Andrews. He took second on the throw in. Kelley singled to center, scoring McAuliffe and when Daley threw wildly to the plate Kelley reached third. Bracken made a phenomenal one-hand pick-off of Watkins' grounder and retired him at first. Three runs, five hits, one error.

**Lowell**—Daley flew out to Kelley. Bracken was passed and stole second. Harris struck out. Roach threw the ball into center field attempting to catch Bracken off second, who then took third. Devlin fouled Sullivan's roller and Bracken scored. Desmond grounded out. Andrews to Harrington. One run, no hits, two errors. Score: Boston 11, Lowell 5.

**Ninth Inning**  
Boston—Roach was thrown out by McAuliffe. Harrington went out at first. Bracken to Devlin. Norton fled out to Harris. No runs, no hits, no errors.

**Lowell**—Arthur was thrown out. Andrews to Harrington. McAuliffe made an error on Devlin's grounder. Reynolds forced Devlin at second. Daley to McAuliffe.

**SCORELESS TIE**  
A scoreless tie resulted in the game between the Lowell Indians second team and the Cardinal A. A. yesterday afternoon at the Fair Grounds. The contest was the first one of the year for the local contingent, and practically opened the gridiron season hereabouts. Both teams rushed the ball to the opponent's end, but were unable to push the kicking across. Turner, Cunningham and Jones played a slashing game for the Indians.

Next Sunday the Lowell team will line up against the Wizards of Manchester, N. H. The latter eleven is a well known and formidable team, having shown its ability here in past seasons. The local players are requested to report for practice Tuesday evening at Fisher's field.

**BALL PLAYER DROPS DEAD**  
BALTIMORE, Md., Sept. 26.—While in the act of scoring a home run, a ball player at the first base club yesterday afternoon, George Bender, aged 18 years, fell dead of heart disease.

Centralvilles Shut Out Lawrence K. C.  
and Even up the Inter-City  
Championship Series

THE CENTRALVILLE PLAYERS WATCHING THE RICARD CUP PRESENTATION

The Centralvilles evened up their series with the Lawrence K. of C. on the South common, Saturday afternoon, by defeating the downriver visitors, 5 to 0. Whitney's excellent mound work and heavy slugging on the part of the local Twilight league champions spelled victory for Manager Foye's men. They knocked Higgins out of the box in the fourth and when Maloney, the Lawrence star, took his place, the Centralville sluggers showed him no more respect. They scored two runs while Higgins was in the box and three during Maloney's regime.

The third game will be played next Saturday, weather permitting. The place has not yet been announced. Between 5000 and 7000 people attended the game. Before the contest started, the players of both teams lined up at the home plate and after posing for photos, looked on while Frank Ricard presented a handsome silver cup to Manager Foye in recognition of the ability of the Centralvilles in winning the Twilight league championship. The fans applauded, as Manager Foye accepted the cup. The game play by play:

**First Inning**  
Lawrence: Moher fled to Jenkins in left field. Dean singled to the crowd in right, but was retired in an attempt to steal second. W. Foye to McVey. Daley struck out. No runs, one hit, no errors.

**Lowell:** McVey fanned. McPherson dropped one in front of the plate and was retired at first. Sullivan to Smith. Cawley grounded to Dean at short and died at first. No runs, no hits, no errors. Score: Lawrence 0, Centralvilles 0.

**Second Inning**  
Lawrence—Smith fanned. McFarland also struck out on three called strikes. Whitney was showing great form. He had loads of speed. Ferrin grounded to second and died at first. No runs, no hits, no errors.

**Lowell:** Walter Foye slammed a hot one to first, too speedy for Smith to handle. He was safe. Jenkins fled out in front of the plate. A Foye singled to left. W. Foye going to second. McSorley was passed. The crowd was in an uproar. Bradbury struck out. Two down. Whitney hit a high fly to center and the inning was over. No runs, two hits, no errors. Score: Lawrence 0, Centralvilles 0.

**Third Inning**  
Lawrence: Keegan fled to McVey in short right. Higgins fled to Bradbury, who dropped the ball. Higgins was safe. Sullivan fanned. Higgins was put out attempting to steal second. W. Foye to Bradbury. No runs, no hits, one error.

**Lowell:** McVey singled to left. McPherson attempted to sacrifice, but McVey was out at second. The batter was safe at first. Cawley was passed. McPherson scored on Walter Foye's double to right. Cawley went to third. Jenkins fled to right but Cawley scored on the throw and W. Foye was safe at third. A Foye walked. McSorley fled to Keegan in left. Two runs, two hits, no errors. Score: Lawrence 0, Centralvilles 2.

**Fourth Inning**  
Lawrence: Moher singled through short. Dean fanned. Moher was caught between second and third and was retired. Whitney to Cawley to McVey. Daley was retired at first. No runs, one hit, no errors.

**Lowell:** Bradbury singled through second. It was a hot grounder. Whitney singled to right and Bradbury went to second. Higgins was taken from the box at this point and was replaced by Maloney. McVey bunted and Bradbury was retired at third on Smith's throw. Whitney going to second. McPherson hit into a double play by sending a grounder to short. No runs, two hits, no errors. Score: Centralvilles 2, Lawrence K. of C. 0.

**Fifth Inning**  
Lawrence: Smith fled to Cawley. McFarland walked. Ferrin, the leading hitter of the Lawrence Twilight league, fanned. McFarland stole second. Keegan struck out. No runs, no hits, no errors.

**Lowell:** Mayor Thompson joined the ranks of the Centralville supporters at this point. Cawley was retired at first. Dean to Smith. Walter Foye was retired at first after a pretty stop of his grounder by McFarland. Smith was out at first. Dean to Smith. No runs, no hits, no errors. Score: Centralvilles 2, Lawrence K. of C. 0.

**Sixth Inning**  
Lawrence: Maloney was retired at

FRANK RICARD PRESENTING MANAGER FOYE THE CHAMPIONSHIP TROPHY

**First Inning**  
Bradbury to Cawley. Sullivan sent single through gap between first and second. Moher fled to Jenkins. Dean grounded to McPherson and was out at first. No runs, one hit, no errors.

**Lowell:** Arthur Foye was retired at first. Smith at first made a pretty catch of Dean's throw. McSorley walked. McSorley grounded to left. McSorley going to second. Whitney was retired at second on McVey's grounder. No runs, one hit, no errors. Score: Centralvilles 2, Lawrence K. of C. 0.

**Seventh Inning**  
Lawrence: Daley fled to McVey. McVey also captured Smith's fly over short. McFarland fanned. No runs, no hits, no errors.

**Lowell:** McPherson singled over second. Cawley grounded to short and McPherson was out at second. W. Foye singled to right. Cawley going to second. Jenkins struck out. A Foye grounded to short and W. Foye was retired at second. Dean to Moher. No runs, two hits, no errors. Score: Centralvilles 2, Lawrence K. of C. 0.

**Eighth Inning**  
Lawrence: Ferrin again fanned. Worst calling for Keegan, fled to Cawley. Maloney placed a nice fly between A. Foye and Bradbury in right and neither fielder got it. Maloney was soon retired at second when Sullivan grounded to the infield. No runs, one hit, no errors.

**Lowell:** McSorley grounded to Maloney and was out at first. Bradbury made first on Moher's error at second and went to second on Whitney's single to right. Bradbury and Whitney scored on McVey's single to center, the latter going to second. McVey scored on McPherson's single to right. Cawley hit to short. McPherson was retired at second, but Cawley went to second on Dean's low throw to first. W. Foye singled to first. Cawley going to third. Jenkins grounded to second and was retired. Three runs, four hits, no errors.

Mascot Predicts Victory for  
the Yankees in Big Series

BABE RUTH AND MASCOT EDDIE BENNETT, SNAPPED IN THE YANKEES DUGOUT.

**BY BOB DORMAN**  
Babe Ruth may be the champion home-run hitter of the universe, but Eddie Bennett of Brooklyn holds the laurels when it comes to mascot.

It was in 1919 that Eddie first took his job as mascot to his league ball club.

Being a pal of Nap Lajoie, star-outfielder of the White Sox, Eddie was put into a Chicago uniform by Lajoie and taken on the road as the official mascot of the team.

The White Sox were victors in the American league race although they lost the World Series in a somewhat smelly manner.

**Joins Dodgers**  
After the expose of the Black Sox, Eddie, who loves baseball with all his heart and soul, turned to the home club, and became the official mascot of Brooklyn warriors, the Brooklyn team of 1920.

How well he succeeded in his job is shown by the fact that the Robins surprised all the experts, and topped the flag.

Eddie blames the loss of the World Series pennant to the fact that he was not taken along by the team when they went to Cleveland, where the Dodgers suffered four straight defeats.

**And Now Yanks**  
"Didn't I mascot 'em to two wins out of three on the home grounds?" and then look what happened when they went to Cleveland without me," says Eddie.

Disgusted by being left at home by

Brooklyn, he joined the Yankees this year. "And just look at 'em," says Eddie. "They're going to win, sure. With me to bring 'em luck, and 'Babe' to hit home runs, they just can't lose."

HARVARD SPORTS  
CAPTAIN VERSATILE

CAMBRIDGE, Sept. 26.—Because Harvard's sports captains are men of more than one activity, the varsity cheerleaders' squad lacks members. Ordinarily there are four leaders. For the opening football games of the season, Saturday, Sept. 25, McCagg of New York, captain of the crew went through the motions alone.

It is customary to have the captains of baseball, hockey, track and crew act as directors of cheering for the eleven. George Owen, hockey captain, is a busy man in the Crimson backfield on football days. Joko Conlon, baseball captain, is a leading candidate for quarterback and, with the track captaincy unfilled, McCagg of the crew is the only captain available.

**DISCUS THROWING AT HARVARD**  
CAMBRIDGE, Sept. 26.—Harvard athletes are to be trained in the javelin and discus throw, and J. Nikkila, a member of the Finnish Olympic team in 1912 has been engaged to coach these sports. The new events, new to collegiate sports, are to be added to next year's track and field programs.

Yanks and Indians in Final  
Game of Crucial Series

NEW YORK, Sept. 26.—With an advantage of a nine point lead, and assured of at least an even break in the present series, the New York Yankees today met the Cleveland Indians in the fourth and concluding contest. The leaders won the first and third games while Cleveland took the second.

The visitors cannot wrest the American league leadership from the Yanks by a win today. A victory for the Indians still would leave the New Yorkers in the lead by one point. On the other hand, if the Yankees win they will increase their lead to 15 points over their rivals and make it difficult to dislodge them from the top position in the few remaining games of the season.

In piling up a score that resembled a gridiron result more than baseball 21 to 7, the Yankees yesterday established a season's record for runs scored. The biggest National league score since 1900 was made by Cincinnati against Boston on June 4, 1911, when the winners tallied 26 times against three for Boston. In the American league the biggest score was Boston 23; Philadelphia 12, made on May 2, 1901.

Every Yankee made one or more hits except Catcher Devorner who was not officially credited with a time at bat. Meusel, Pipp and Peckinpaugh were the batting leaders with three hits apiece. Of six errors by Cleveland, Sewell made three and O'Neill two.

Mays who pitched yesterday and Hoyt were the winning twirlers for New York in their two victories while Uhle was Cleveland's winning pitcher on Saturday.

"Irish" Meusel Plays Big Part  
In Success of Giants

NEW YORK, Sept. 26.—Eight hits in two days by Left Fielder Emil "Irish" Meusel of the New York Giants was one reason why his team has an 18-point margin over Pittsburgh in the National league today. He drove home four runs with two doubles against St. Louis yesterday and clinched the game for the easterners. Two others of Meusel's hits were singles, whole in the day before he hit safely four times in as many trips to the plate. Pittsburgh did not play yesterday. A merry battle for third place in the American league has developed between St. Louis and Washington. The Browns held the berth today, but were only three points ahead of the senators who yesterday defeated Detroit for their seventh straight victory. Second Baseman Harris of Washington was a busy ballplayer. He made three hits in four times at bat, stole a base and in the field made four putouts and three assists. Catcher Gharitty of the same club had a perfect batting average with three hits, two of them triples.

Thomas, a recruit outfielder of the Chicago Cubs, showed his older teammates a few tricks in winning ball games. In the first game of a double header with Boston, he drove home the winning runs with a single and in the second contest his double in the final inning started a batting rally that won the battle. Each game went 12 innings.

**FOOTBALL NOTES**  
The Madison A. C. would like to challenge any 150 pound team in the state. Our lineup is as follows: Pat Welch, Tom Dowd, Mike Poppel, George Ivers, Sam Brown, Jim Day, John Donohue, Charlie Chin, Gus Slattery, Phil Carrig manager and Harry, Chuck Harrington, Tom Smith and Phil McAuliffe subs. ## Mohardt Will Fill Shoes of Gipp, Dead Notre Dame Star

GEORGE GIPP (LEFT), DEAD NOTRE DAME STAR, AND (RIGHT) JOHN MOHARDT, PICKED TO REPLACE HIM.

By N.E.A. Service  
SOUTH BEND, Ind., Sept. 26.—Last fall every football fan mourned the death of George Gipp, Notre Dame star, picked for fullback on Walter Camp's mythical All-American.

His gridiron prowess will never be duplicated, said the fans. Yet Coach Rockne, the man who developed Gipp, says he has a chap who will capably fill the shoes of the deceased star.

It is none other than Johnny Mohardt, who teamed with Gipp last year.

While Mohardt will not be the all-around player that Gipp was, he will startle the football world before the season is over, says Rockne. Johnny will equal Gipp in running with ball and executing forward passes, but there is only one Gipp. George was the superstar at the game for two reasons—he knew the game and he could play in any department.

Gipp's equal as a gridiron thinker on the gridiron, in my opinion, will never be produced. He had the knack of thinking on the spur of the moment and outwitting the defense against him.

Overcoming Mistake  
"When it comes to speed in carrying the ball, shifty and cunning, Mohardt has everything which made the great Gipp. His keenness surpasses Gipp. I believe with the

seasoning Mohardt has had, he will overcome the one mistake he made last season—that of being over-ambitious."

Mohardt is a senior at Notre Dame this year and one of the greatest all-around athletes ever developed by the institution.

His home is in Gary, Ind.

## TO BROADEN ENGLISH PITTSFIELD WINS FLAG-DAN SHEA, OF NEW YORK, COLLEGE ATHLETICS IN EASTERN LEAGUE DECATHLON CHAMP.

NEW YORK, Sept. 26.—An English intercollegiate athletic association and a series of intercollegiate contests may result from the recent visit to this country of Bevil G. D. Rudd, the captain of the Oxford-Cambridge track team, which competed against Harvard and Princeton and Cornell, who outlined his plans for a broadening of English college athletics previous to sailing for his home.

Rudd said he hoped to develop a British Isles intercollegiate body modeled along the lines of the American I.C.A.A.A. While there are not as many institutions in England, Scotland and Wales, it is Rudd's idea to combine them with those of Ireland into a central European association holding annual championship games in addition to the usual dual contests of which the Oxford-Cambridge meet is the most notable.

Meanwhile, Rudd said he would work for a continuance and expansion of the present line of track contests between American and English universities. It is not unlikely that in an effort to further stimulate the present friendship existing between the two countries, England will be the scene of an international meet next summer.

In this connection a novel suggestion was advanced that a set of games be arranged in which teams representing Oxford and Cambridge compete at the Queens Club, London, against the combined athletic forces of Cambridge and Cornell.

The intercollegiate Rowing association has invited the winner of the Oxford-Cambridge regatta to the Poughkeepsie regatta in June. Rudd said that if the question of a suitable date could be arranged, he thought the English crew on the Hudson was more than a possibility.

BOSTON, Sept. 26.—The Eastern league season closed yesterday with Pittsfield winning a second consecutive flag in the last two weeks by taking six straight games against the Eastern League. Al Merrett, loaned to the team by the Boston Braves, and Clifford Best, who was with the Red Sox last spring, did some fine pitching for the champions, as did Hoover and Hummer.

The New Haven team, managed by Chas. Bender, which won the pennant in 1920, finished fourth. The season opened April 27, and by June 13, when Worcester was defeated, the team had moved up to fourth and getting closer to the leaders all the time.

Bridgeport led for a brief period in mid-August, but Pittsfield was always close to the top and assumed the lead on Sept. 19, holding it until the final game, when they defeated Worcester, 5 to 4, to win the flag.

PROVIDENCE, Sept. 26.—At a meeting of the American Roller Polo League yesterday it was definitely decided to open the season on October 15. Eight teams will be in the league this season. Players were assigned and playing dates arranged.

The league was formed with the possible exception of Lawrence, who with Portland and Woonsocket, were voted into the league. The makeup of the league is as follows: Portland, New Bedford, Worcester, Portland, Salem, Providence, Woonsocket and Lawrence.

The assignment of players was made as follows: Davies, Alexander, Quigley, Morrison and Blount.

New Bedford: Duggan, Wiley, Dufford, and Williams. Worcester: Thompson, Force, Hardy, Donnelly and Jette.

Portland: H. Hart, St. Aubin, Harrold, Deckerly and Hueffner. Salem: H. Williams, Houchard, Jean, Muirhead and Pence.

Providence: Higgins, Pierce, Evans, Lyons and Purcell. Woonsocket: R. Williams, T. Welch, Rickett, Smith and Corbin. Lawrence: Harkins, G. Hart, Griffith, Foley and Lovegren.

The playing dates at home were assigned as follows: Lowell, Tuesdays and Saturdays; New Bedford, Tuesdays and Saturdays; Worcester, Mondays and Thursdays; Providence, Mondays and Thursdays; Woonsocket, Tuesdays and Thursdays; Salem, Tuesdays and Thursdays; Portland, Mondays and Thursdays; Lawrence, Tuesdays and Thursdays.

Keynotes state that the league has not been assigned its home playing dates as yet. Lawrence will play in the rink at City Hall in that city.

CORNETS PITCHER IN NO-HIT-NO-RUN GAME  
LYNN, Sept. 26.—Frank McDonald, left-handed pitcher for the Cornet team, a semi-professional organization, pitched a no-hit, no-run game against the Revere Knights of Columbus nine yesterday. McDonald, who was obtained by the Boston Americans a few days ago, has won all 11 games he has pitched this season.

BALTIMORE WINS LEAGUE PENNANT  
NEW YORK, Sept. 26.—The International league concluded its 1921 schedule yesterday with Baltimore in first place, finishing with 110 victories and 71 defeats for a percentage of .717. Rochester with a percentage of .559, was second.

JERSEY CITY, N. J., Sept. 26.—Dan Shea, member of the New York fire department and representative of the Pastime A.C. yesterday won the national A.A.U. decathlon championship with a grand total of 6843.33 points. Rutgers Hamilton University of Missouri, former champion, did not compete this year. Hamilton won the championship last year with 7022.38 points.

Of the five events contested yesterday Shea won one and tied in another. He was home first in the 1500-meter run, negotiating the distance in 4:00.5 and in the 110-meter hurdles, he tied for first place with W. J. O'Connell.

In the first half of the decathlon Shea yesterday captured premier honors in the 100-meter run and the 400-meter run. He was third in the running broad jump, second in the 16-foot shot put and third in the running high jump.

Patrik O'Connor of New York was second to Shea in the championship with a total of 5377.87. O'Connell won the shot put event and running broad jump yesterday and the discus throw yesterday. He was third in the 110-meter hurdles and fourth in both the pole vault and javelin throw.

Joseph Erbal, unattached, was third with 5571.597. W. J. O'Connell, New York State, was fourth with 5417.87. J. T. O'Connell, Columbia University, 4085.132 and Sven Petander, Swedish-American A.C., 4841.71.

EIGHT NEW SWIMMING RECORDS MADE  
NEW YORK, Sept. 26.—Eight swimming records, five world's and three American were set in an open meet in a 25 yard pool at Brighton beach yesterday. The record performers were Miss Charlotte Boyle of New York, Norman Ross of Chicago and relay teams of the women's swimming association of New York.

Miss Boyle set world's record for 220 yards of 2 minutes 47.5 seconds, as compared with the former mark of 2:53 made by Miss Ethelna Bishbey in Australia earlier this year. The 200 yard mark was raised to 2:32.4-5 four-fifths of a second faster than the world's record time made by Miss Boyle here last month.

Ross made three American records, covering 400 metres in 5:11.2-5, two seconds faster than his own record set in 1917; 300 metres in 3:54.4-5 three-fifths of a second better than the former record made by J. H. Volmer of New York in 1916; and 400 yards in 4:49.3-5 which surpassed Volmer's time of 4:56.1-5 made in 1916.

The three world's records were 4 minutes and 40 seconds for the 400 yard event, in which the swimmers were Helen Walnwright, Charlotte Boyle, Gertrude Ederle and Ethelna Bishbey. The 300 yard event, in which Alleen Riggin swam the fifth relay, and 7:11.1-5 for 600 yards, with Alleen Lord as the final performer.

## Urges Japan to Demand "Open Door"

TOKIO, Sept. 26.—Any attempt by the powers to discuss limitation of armaments at Washington, while fostering secret ambitions will prove worse than useless, it is declared in resolutions adopted by an association of politicians, publicists and business men which was formed for the purpose of studying questions relative to the Pacific. Recommendation is made that as a basis of the Japanese policy this country should maintain adherence to the plan of the "open door" on an international basis, refrain from all interference in Chinese, Siberian and Mexican affairs, and advocate disarmament as far as possible.

## RUTH AND MEUSEL STAR SLUGGING DUO

In Babe Ruth and Bob Meusel the New York Yankees probably have the greatest slugging pair who ever played on one team at the same time. To keep arguments out of it, we will eliminate the old timers for there are many today who still stick to the halcyon days of players as being supreme in slugging.

With his home run drive yesterday Meusel went into a tie for second place honors with Williams of the Browns, each having hit 24 home runs this season. With Meusel's pair, Ruth and his great record, any duo that can pound out nearly 50 home runs in a season is a class by itself.

Wallacing Sun Crawford and Ty Cobb made a powerful pair for any pitcher to face when they were taking care of the outfield territory for Detroit a few years back. Detroit now has its Cobb and Harry Heilmann, both great hitters still.

Cleveland boasted of Nap Lajoie and Joe Jackson at one time while St. Louis now has its George Sisler and Baby Doll Jacobson. Home Run Baker and Eddie Collins used to be a handy pair with the major league for the Athletics while Pittsburgh had Hans Wagner and Fred Clarke. But put them all together in a pile, be given choice of any of the above named tandems and Ruth and Meusel would always be drawn from the heap first.

## CHELMSFORD BALL TEAMS EVEN UP

North Chelmsford and the Chelmsford A.A. are even up as far as their baseball series is concerned, the Northies winning Saturday's game by a score of 5 to 2.

The contest in itself was a close affair up until the seventh inning, the score being one all. Here the winners broke away with four runs and cracked the game wide open. The A.A. managed to push a run over in the last half of the ninth but a single made little or nothing as far as the outcome of the game was concerned.

Each team scored a run in the fourth. Bridgford connected for a single and came walking home on a two base by Desmarais. Singles by McElroy and Dickard tied the score.

The Norths got busy in the seventh. Hopper led off with a single. Ryan was hit by a pitched ball and the bases were filled when Berg booted Dickard. Berg followed this up by fumbling Hayley's grounder. Topper scored. On a line roller Ryan was forced at the plate.

Bridgford came across with a single, allowing Brick and Hayley to count. Nolan was doubled off by the pitcher. Dunningan hit to Desmarais and Hollis was nipped at the plate. Bridgford snaked home while an argument was going on over Dunningan's status at first base. Nolan tried to follow his mate, but was out at home.

Desmarais deserved a better fate than a loss at home. He batted .300, batted .300 and had a perfect batting average, batted out five safeties in as many trips to the pelting station.

## BEST SPORT EXTRA EVER

Sun's Baseball Edition Saturday Evening Was a Real Record Breaker

One of the most enterprising newspaper stunts seen in Lowell in many months was planned and successfully carried out by The Sun Saturday afternoon when it issued an extra carrying complete stories of three big ball games. The extra was on the streets a few minutes after the close of the Lowell K. of C.—Boston Post Office game at Spaulding park and not only carried a detailed, play-by-play story of that game, but also of the inter-city series game between the Centralville and Lawrence K. of C. on the South common and the big New York-Cleveland contest at the Polo grounds where the American league championship is being decided.

No other newspaper gave Lowell readers an inkling Saturday afternoon of the outcome of any of these games, despite the fact that the fans were clamoring for the news. The Sun, anticipating this natural desire, organized its sporting staff to cover the two big local games and made arrangements with the Associated Press for a detailed story of the Polo grounds contest.

The result was the best sporting extra that has been issued by any newspaper in New England for many years. Today The Sun received innumerable congratulations from baseball fans on its enterprise in getting out such a worth-while extra.

## RESCUED AFTER THREE DAYS IN OPEN SEA

NEW YORK, Sept. 26.—Rescued after spending three and a half days in two small boats on the open sea when their ship, the Italian freighter, Alacrita, foundered in a terrific hurricane, Capt. Giuseppe Schaffino and his crew of 29 men arrived yesterday, none the worse for their experience, on the Spanish cargo boat Cabo Cruz.

On Sept. 16 the Alacrita encountered the hurricane, which fairly engulfed the ship and threw her into the trough of the sea. In the mountainous waves her rudder was disabled and she became unmanageable. Then her cargo of grain shifted and she listed so heavily that the waves tore off the hatches and water poured into her holds. After eight hours the storm abated but the ship already was sinking rapidly. At dawn, Sept. 17, the crew put off in two small boats just a moment before the ship took her final plunge.

For more than three days the crew, drenched and hungry, took turns at the oars. At noon of the fourth day the Cabo Cruz came into sight and picked them up six miles north of where the Alacrita sank.

## PROBE SHOOTING OF STUDENT

ATHENS, Ga., Sept. 26.—Local authorities last night were investigating the shooting of E. L. Strange and another young man named Stevens, Georgia university students, who were wounded last night in a clash between police and 200 students celebrating "freshman night." It had not been determined last night whether the police who opened fire after a brick had been thrown through the windshield of their automobile, aimed at the students or intended to shoot into the air to frighten them.

The police, it was said, were following the students to prevent rowdiness after they had visited the Lucy Cobb Institute and were going to the direction of a dormitory on Lumpkin hill.

## MISCELLANEOUS SHOWER

A miscellaneous shower was tendered to Miss Alice Casey, a popular young lady of this city at the home of Miss Agnes Roark last Friday evening when about 75 of her friends gathered and showered her with many beautiful gifts of cut glass, silverware, linen, etc. Miss Casey is soon to become the bride of Mr. John I. Roark. There were many musical numbers in which the following took part: Miss Ethel Brennen, Miss Wilfred Welch, Miss Katherine McCormack, Miss Mary Roark and Miss Clara Staples.

One of the features of the shower was a mock marriage in which Miss Margaret Clancy was the bride and Mrs. Philip McCarron was the bridegroom, with Miss Marie Provancher as the clergyman and Miss Ora Housquet as the flower girl. Miss Anna Casey, Miss Minnie Roark and Miss Ella Roark acted as hostesses.

**"DON'T GET HURT"**  
Slogan of "No Accident Week"—Opened Today

BOSTON, Sept. 26.—Prevention of accidents is the keynote of the tenth annual congress of the national safety council which opened at the state house today. At the same time a "no accident week" is being observed in Massachusetts and elsewhere in New England with a slogan for the week "Don't Get Hurt."

en up largely with section meetings.

In his opening address, President Charles P. Tolman of New York said the citizen to secure his right to safety must combat the custom of carelessness and must show consideration for his neighbor by not pursuing his happiness too speedily.

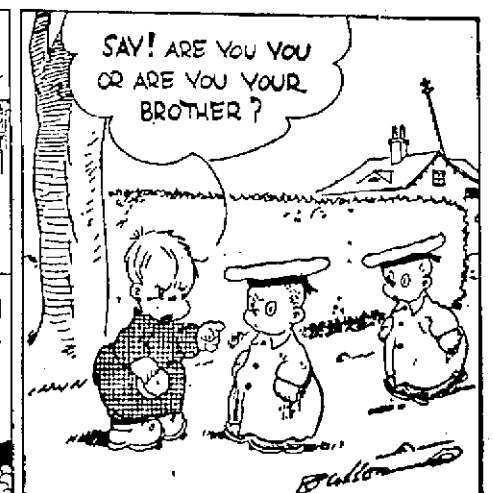

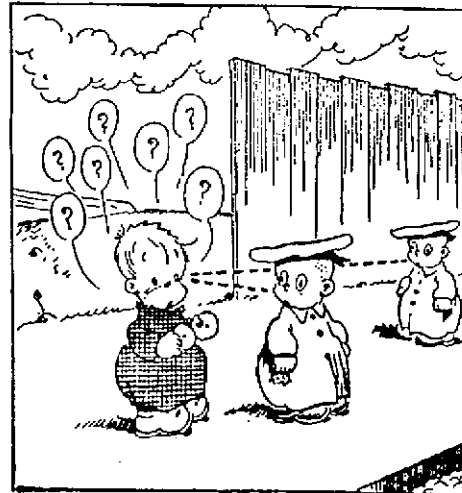

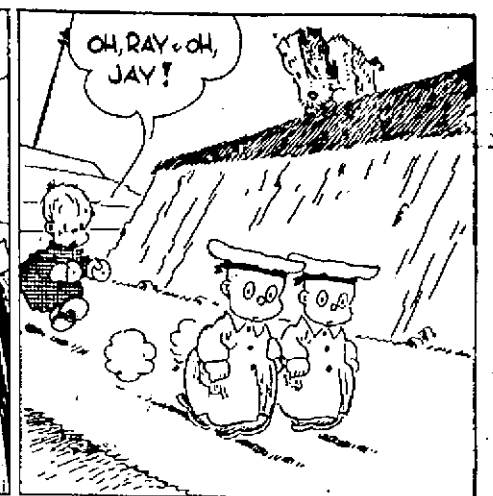

"The growth of the national safety council to a membership embracing industrial concerns employing approximately six million men," he added, "is in itself evidence of the success of accident prevention work. In a certain group of factories representing a variety of industries records kept show a reduction of 70 per cent. in accident severity."

Two to three hours' soaking loosens all the dirt

—just rinse and the clothes are ready for the line

NO more of the back-breaking rubbing that used to leave you utterly exhausted after washday.

A few hours' soaking in Rinso suds takes the place of all this needless drudgery.

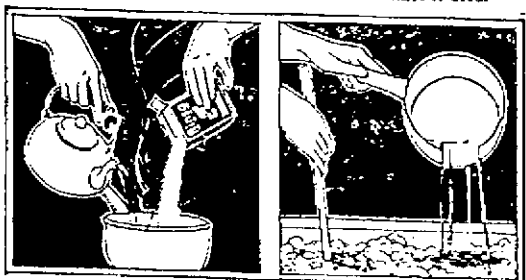

Rinso is the new soap product that loosens and dissolves the dirt from even the heaviest pieces of the weekly wash. It

gets the clothes sweet and clean without injury to a single fabric. You don't have to rub anything but the very soiled spots such as neck-bands and cuffs, and those just lightly.

Don't rub your youth away. Get Rinso today from your grocer or any department store. Lever Bros. Co., Cambridge, Mass.

Perfect in washing machines

With Rinso you don't have to do any rubbing. Follow regular directions given here. After soaking the clothes, wring them into machine full of hot water to which has been added enough fresh Rinso solution to make a good suds. Operate machine and rinse clothes. No other soap product is needed when Rinso is used.

**DISSOLVE!** For each tub of clothes thoroughly dissolve a half package of Rinso in two quarts of boiling water. Where water is hard or clothes extra dirty use more Rinso.

**POUR INTO TUB** of lukewarm water—mix well. Keep adding the solution until you get a good, rich, lathering suds, even after the clothes have been put in.

**Rinso**

8¢

Then let your clothes soak and rinse without any hard rubbing—Soak one hour—two hours—overnight—whatever time is convenient. These wonderful mild suds loosen every particle of dirt. Rinse to remove the loosened dirt, till water runs clear.

THE ECONOMIC WEAPON

Methods of Applying it  
Against Violators of League  
Covenant Taken Up

GENEVA, Sept. 26. (By the Associated Press.) Methods of applying the economic weapon of the League of Nations against a country which violates the provisions of the covenant of the league came before the assembly of the league this morning when the blockade committee submitted its report.

The committee found it was impossible for the league to decide before-hand in detail the various steps of an economic, commercial and financial nature that should be taken in each case. It proposed that the council of the league make recommendations to the members as to a plan for joint action when necessary should arise.

In the resolutions that were proposed, provision was made that certain states might for a certain period be released from the obligation of blockading another country if the conditions were such as would involve special danger to those states.

An important question facing the assembly at the beginning of this debate was how to get action on the proposals of the committee under the rule requiring unanimity, this rule not yet having been abrogated. Lord Robert Cecil, representing the United Kingdom, recently made a motion that the rule be suspended, but it was referred to the constitutional committee.

An effort will be made to obtain a vote on this motion before halting begins on the resolutions regarding the blockade. It is believed that unanimity on committee recommendations is impossible. In addition to resolutions interesting the covenant of the league, the committee proposed an amendment to Article XVI of the covenant, which provides for united action against a state violating that agreement.

The council of the league will give an opinion whether a breach of the covenant has taken place. When the council gives such opinion, the votes of states bringing the charge whether they are members of the council under Article IV, or have been specially summoned, shall not be reckoned in determining whether or not there has been a unanimous decision.

Another proposed amendment reads: "The council may in the case of a particular member postpone the coming into force of any of these measures for a specified period where it is satisfied such postponement will facilitate the attainment of the object of the measure to be applied, or that it is necessary in order to minimize the loss and inconvenience which will be caused such members."

This amendment is proposed to satisfy the Scandinavian members who demanded exemption from the obligation to blockade when the measure was applied to neighboring states.

Delegate Poullet of Belgium told the assembly that his delegation did not consider that the amendment permitting certain states to postpone the coming into force of the measures would weaken the force of Article XVI of the league covenant, dealing with action against covenant breaking members.

Senior British representative pointed out that his country's geographical position made it impossible for Uruguay to fulfill any obligation which might devolve upon her for the blockade of other states.

He opposed weakening the obligations of the covenant, but he thought special circumstances should be taken into consideration.

M. Reynaud of France, said he considered that some of the proposed changes weakened the economic arm of the league. Public opinion alone was insufficient to deter states from covenant breaking he declared, and there must be an effective weapon for the immediate application of measures of an imperative character.

In his view, Article XVI should not be modified.

CHICAGO, Sept. 26.—Dismissal of Chicago policemen in wholesale lots was proposed in official circles today in connection with the federal investigation of violations of the prohibition law.

Following announcement Saturday by Chief of Police Charles Fitzgerald and today is to furnish a list of more than 5000 men who have been involved in liquor law violations. Chas. F. Cline, United States district attorney, promised his cooperation to Fitzgerald and today is to furnish a list of all officers who have fallen under federal investigation in connection with whiskey running and bootlegging.

Officers Swooped Down Upon an Alleged Opium Joint

Two alleged violators of the Volstead act and a local Chinese laundry man charged with using opium and with keeping an opium resort were the principal defendants in cases before Judge Thomas J. Enright in the district court this morning. The session was one of the shortest on record in the local court. It took but twenty minutes for the justice to dispose of the Monday list of cases that otherwise usually stretches the session into the early afternoon. Believing that some important cases would be tried the court room was packed with spectators.

## FULL STORY OF "GIN PARTY"

Witnesses to Give Details of Revel in Arbuckle's Room at Today's Hearing

Mrs. Delmont, Who Swore Out Murder Complaint, Principal Witness

Hotel Doctor Says He Found Miss Rappe in Great Pain When Called Into Case

SAN FRANCISCO, Sept. 26.—Doctor Arthur Beardslee, testifying today in the police court examination of Roscoe C. Arbuckle, said he found Miss Virginia Rappe, whose death Arbuckle is charged with having caused, in great pain when he was called into the case.

Miss Rappe's writhing in intense pain overshadowed evidence of alcoholism, Dr. Beardslee testified, and it was necessary to quiet her by the use of a drug.

This was in the evening of Sept. 5, a few hours after the party, out of which the charge against Arbuckle arose, according to the physician and early the next morning he discovered evidence to support an earlier conclusion that Miss Rappe had suffered an internal injury.

From the beginning he realized it was a surgical case and advised removal to a hospital, he said.

"There was no other conclusion to draw from the evidence than that the bladder was ruptured," the witness said.

In answer to a hypothetical question regarding the cause of a torn bladder, Dr. Beardslee replied that he would consider external force, such as a fall or blow the origin.

Violent and continued vomiting might cause such a rupture, the witness replied to a question from Arbuckle's counsel.

Series of Sharp Tiffs  
A black and blue spot on one arm was the only external sign of injury, according to Dr. Beardslee.

"Don't call me your friend," snapped the witness at Frank Dominguez, Arbuckle's chief counsel, after a long series of tiffs between them during questioning by the defense attorney. In the absence of his attorneys, Arbuckle acted for himself today in the superior court in agreeing with the district attorney that the manslaughter charge pending against him should be continued until October 3.

Mrs. Delmont to Testify  
SAN FRANCISCO, Sept. 26.—Mrs. Barmine Maude Delmont, who swore to the complaint accusing Roscoe C. (Fatty) Arbuckle of the murder of Miss Virginia Rappe, was announced as the principal witness who would be called at the comedian's preliminary hearing in the Arbuckle case, court here today. Mrs. Delmont was the companion of Miss Rappe at the party in the Arbuckle suite at the Hotel St. Francis at which the girl is said to have suffered fatal injuries.

The plan called for Mrs. Delmont to take the witness stand after Dr. Arthur Beardslee, house physician of the St. Francis and a Semanacher of Los Angeles, Miss Rappe's business manager, Semanacher, it was announced last night would be asked to testify as a defense witness. Arbuckle's attorneys saying that important details had been overlooked in his previous testimony. Semanacher initially was called as a prosecution witness but the prosecution repudiated him.

District Attorney Brady said last night: "We are satisfied with the progress made in the Arbuckle case. We wish to impress upon the public, though, the fact that we are not trying to 'hound' any man or attempt to force a conviction of a person on any charge. All we are trying to do in this case is to get the truth and punish those responsible for Miss Rappe's death."

## Session Which is Expected to Evolve Means of Putting Nation's Idle to Work Begun at Washington

### TEXTILE SCHOOL OPENS WITH BIG REGISTRATION

Principal Eames Addresses the Freshmen

---Comical Initiation Antics at Merrimack Square---Class Marched Shoeless

Lowell Textile school began its 24th academic year today with one of the largest registrations recorded in its history. While it is impossible to state the exact number of students an entering class of about 150 will make the total enrollment slightly over 300.

The day was devoted to registration and adjustment of classes. The regular work will begin tomorrow with short classes in all subjects. An address to the freshmen class by members of the faculty and students, and the antics put on by the entering class at the urgent request of the sophomore, took up most of the time. According to President Charles H. Eames, this year will be a banner one for the institution. A number of alterations have been made to take care of the large number of students. During the summer months a force of

### DEPRESSION A WAR LEGACY

President Opposes Relief

Which Seeks Palliation or Tonic From Treasury

Predicts Results of Conference Will Extend Beyond Borders of United States

Tells Delegates That in Their Deliberations They Will Perform Service to World

WASHINGTON, Sept. 26.—The national unemployment conference which the administration hopes will evolve means of putting the nation's involuntary idle back to work was formally opened here today by President Harding.

Addressing the half hundred industrial, economic and labor leaders comprising the conference the president described the present industrial depression as "a war inheritance throughout the world" for which as applied to the United States he added, he "would have little enthusiasm for any proposed relief which seeks either palliation or tonic from the public treasury."

Relief was expressed by the president that the results of the conference would extend beyond the borders of the United States and that the delegates in their deliberations would be performing "a service to the world."

"Fundamentally sound, financially strong, industrially unimpaired, commercially consistent and politically unafraid," the president asserted, "there ought to be work for everybody in the United States who chooses to work, and our condition at home and our place in the world depends on everybody going to work and pursuing it with that patriotism and devotion which make for a fortunate and happy people."

The president declared that "the open, sure and onward way to rid the nation of the war's aftermath of depression involved liquidation, reorganization, readjustment, re-establishment, taking account of things done, Continued on Page Ten

CONFERENCE OF DEMOCRATIC SENATORS

WASHINGTON, Sept. 26.—All democratic senators were called today to meet in conference tomorrow to consider minority action with respect to the peace treaties with Germany, Austria and Hungary.

Senator Underwood of Alabama, democratic leader issued the call for the conference after consultation with Senator Hitchcock of Nebraska, ranking democratic member of the foreign relations committee.

Senator Hitchcock, who returned here today and who was not present when the treaties were reported by the committee last week, expressed himself as favoring ratification. Senator Underwood also was said to be a supporter of the treaties. Preliminary surveys were reported as showing

only a comparatively small number of democratic senators opposed to the treaties.

Republican leaders said they expected to lose only two or three republican votes and that the treaties were certain of ratification unless the democrats should make a party issue of ratification and vote almost solidly in opposition.

Senator Lodge of Massachusetts, republican leader, conferred today with Secretary Hughes and was understood to have discussed ratification prospects.

### TAX BILL TAKEN UP IN THE SENATE

WASHINGTON, Sept. 26.—The tax bill was taken up today in the senate for reading after Senator Simmons, democrat, North Carolina, had refused unanimous consent to begin consideration of the measure for committee amendment.

Senator Underwood of Alabama, the democratic leader declared there was no intention on the part of the minority to delay the measure. After a lively discussion between Senator Underwood and Simmons in which the latter vigorously denied the charge that his absence from the city recently would serve to delay the measure the senate clerks began reading the 294 page document.

Senator Simmons prior to the convening of the senate described the bill as "a miserable, makeshift arrangement" and said today he was considering the question of proposing an entirely new measure contemplating a new time taxation policy. He added that the bill now before the senate was simply a patchwork made out of the 1918 revenue act, which was designed solely as a war measure. Senator Simmons said it was not planned to have a caucus of democratic senators to pass on the minority report as the question was not a political one. Democratic members of the committee will draft the report, but Senator Simmons was unable to say when it would be ready for the senate.

### BRASS TACK TRUTH

Lowell Textile Industries are looking up. We have this fact from one who knows and whose feet are always on the ground. Now let each one of us do his and her own little part. Remember this: Industry depends for prosperity upon the PROSPERITY OF EACH OTHER. No class and no part of our community can prosper unless ALL PROSPER.

OCTOBER FIRST is one week from last Saturday. If all our people and all in neighboring towns, all who are able, would add to their Bank Account, or having no bank account would start one, they would help immensely in the present push for the rapid return of PROSPERITY for ALL. Between NOW and October 1 is time to consider and time to act.

## INJURIES PROVE FATAL

Man Who Jumped From Bridge to Train Dies at Hospital

William Girling, aged about 50 years and residing at 31 Church street, died at the Lowell General hospital shortly after 3 o'clock this afternoon as a result of injuries he received this morning on the Boston & Maine railroad near the plant of the U. S. Cartilage Co. in South Lowell. Girling's injuries consisted of a fractured leg, bruises about the body and internal injuries.

It was stated that the man jumped from the small bridge of the U. S. Cartilage Co. over the railroad tracks. According to information given out at the office of the agent of the Boston & Maine in this city, Girling was seen walking on the roof of the coaches and then saw the body of a man rolling to the ground. The train was quickly brought to a stop and the man, who was then conscious and who gave the name of Wm. Girling, was placed in one of the coaches and taken to the railroad station in this city from whence he was taken in the ambulance to the hospital.

## FIREMEN ARE CALLED TO RESCUE CAT

BOSTON, Sept. 26.—Toodies is a large black-and-white Angora cat belonging to Miss Elizabeth Whalen of 27 Bow street, Somerville. Toodies has been correctly raised, and from girlhood has never been allowed out of the house without proper chaperonage. This quiet and peaceful life palled on the cat, last week, consequently she took an opportunity of going on a party of her own last Friday, unknown to her mistress.

Friday night, however, people in the vicinity of Giles Park heard sounds emanating from a cat in distress—yowls, plaintive mewlings and other nerve-rending noises kept the citizens living around this park tossing in sleeplessness. On Saturday morning Toodies was discovered on a topmost branch of a tall tree in the park. She was unable, or too frightened, to come down.

Coaxing was no good; the cat would not move. As a result, Toodies spent a second night in the tree, and the neighborhood, during the second night was an unwilling audience for the feline's mezzo-soprano. Yesterday morning the residents decided that enough was enough, so they notified the police. The police in turn notified the fire department and Ladder 1 was sent yesterday afternoon about 2.30 to the rescue of Toodies. Soon after the arrival of the ladder truck, approximately 1000 spectators gathered under the tree to witness the work of rescue, so the firemen telephoned for police aid and six or seven patrolmen were assigned to keep the crowd back.

Ladderman Israel Y. Hull ascended a 55-foot extension ladder to the branch where Toodies clung. Ladderman "Jack" McKendall followed Hull up the ladder and supported the slender limb while Hull crawled out to the cat. Hull had provided himself with rubber gloves in case of resistance on Toodies' part, but they were not needed; she submitted to being carried back and down the ladder without fuss, beyond a last rendition of the Mifera.

At the foot of the tree, Toodies was restored to Miss Whalen, who kissed the cat while the crowd cheered. As the spectators dispersed, Miss Whalen was heard to promise Toodies "a good spanking" when they reached home.

**TOO HIGH TO ESCAPE**  
PORT ELIZABETH, S. A., Sept. 26.—Bella Tjilik, a native girl held on three theft charges, scaled the 20-foot prison wall during the night, but injured her hip so severely she could not move. She is in the prison hospital.

## DIRECTOR TELLS AIMS OF DAIRY UNION

BY E. B. HEATON

National Dairy Director, the American Farm Bureau Federation. The American public is being misled out of millions of dollars annually by certain distributors who have hoisted the retail price of milk way out of proportion in comparison to the wholesale prices paid to farmers for the product.

This practice is menacing the dairy industry all over the country and discouraging the industry generally as well.

To offset such pernicious tendencies, the farmer who has awakened to his danger, is rallying round the standard of co-operation and plans to oust profiteering milk vendors from the market by gaining complete control over the milk supply himself.

One reason why milk prices are so excessive, especially in the larger cities, is because the farmer has had to bear the burden of heavy surplus milk production with inadequate marketing facilities.

The large distributors were quick to seize upon this situation of helplessness and paid the dairy owner whatever they cared to for his product, and he was compelled to accept, or turn his milk into less profitable by-products.

On top of this the distributors feeling themselves a law unto themselves, demanded whatever price they could get from the ultimate consumer. This, as I have said, was and is, in nearly every instance, an unfair price and way out of bounds with the wholesale cost.

But the day is at hand when the farmer—the dairy farmer I refer to—has come to realize that if he is to keep in the business of producing milk, he must have a hand indicating how much the consumer shall pay for it.

The dairy farmer is not posing as an altruist, but he is against unfair milk prices, because he knows that every time milk prices are raised or become excessive, the demand for milk drops, and once more his supply stands idle.

With the dairy farmer it's purely a business proposition. He is convinced that the big distributors are working to his evil and for their own good entirely.

The dairy farmer wants the public on his side and knows that he will gain such support by giving the public the milk it wants at a price that is fair.

To this end, the dairy farmer—thousands of him—is combining into a giant federalized co-operative selling union which will operate and control individual producing units scattered throughout the country.

Wherever there is a farming community that engages in milk production, we will have a branch of the co-operative plan within the next two years.

**Results of Union**  
Establishment of this idea on a practical basis will have these results:

One: Afford regular and constant facilities for disposal of production.  
Two: Permit farmers to offer their milk on a contract or bid basis to the distributor who will retail it at the lowest and fairest margin of profit to the consumer.  
Three: Give farmers financial assistance in erecting equipment necessary to convert possible milk surpluses into butter and other products, thus assuring wholesomeness of output and economy of price to the purchaser such as is not the case now.

Four: Provide the protection of a national body to guarantee a fair deal to the farmer and to the public in the matter of milk prices.  
Five: Elimination of unfair distributors who in most instances could bring about a reduction in milk prices by installing more efficient methods in their businesses.

But most of all, the farmer wants retail prices down. He wants to sell on a 50-50 basis of cost and profit. For he believes that if milk prices are low, the demand will be greater and he will make more money in the long run.

WARNING TO YARN USERS

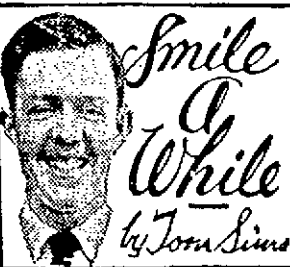

WORSTED YARN IS MADE by combing long, staple wool and spinning it into yarn. The combing process removes the short, broken fibers, leaving only the strong ones. Worsted yarn is, therefore, much stronger and garments made from this kind of yarn retain their shape and give splendid service.

## THIS IS THE WAY FLEISHER'S YARNS ARE MADE

WOOLEN YARNS (shoddy) are made from the short, broken fibers which comb out in the process of making yarn. This yarn makes a satisfactory looking garment, but does not wear well or hold its shape. Woollen yarn is easily detected by testing its strength, as the fibers are very short and pull apart easily.

## OPEN SHOP A SNARE SAYS ECONOMIST

BY REV. JOHN A. RYAN

Professor of Industrial Ethics and Moral Philosophy, Catholic University, Washington, D. C.

The open shop movement as countenanced in the minds of these present-day leaders who advocate it is fundamentally a lie, and opposed to the best interests of the organized worker.

The open shop idea surrounds itself with a lure of promises, but it does not come out directly and tell to what degree it will recognize the collective bargaining rights of the trade union man.

It is a snare and aimed intentionally to undermine organized labor.

**Labor's Duty**  
On the other hand labor must awaken to its growing sense of responsibility. If it expects respect and the insurance of public confidence.

By this I mean, that labor must renounce a very late practice which has become noticeable and to some degree responsible in detracting from labor's prestige, in lessening production or minimizing it to a great extent.

Labor must get back to its former position of rendering a full day's work for a full day's pay, for such a reversal of attitude has been made very necessary, owing to the public's delinquent reliance in labor's tactics.

I see but little opportunity for a cure-all for the obtaining unemployment situation save in the stimulation to business generally, which

might follow if public works were engaged upon.

**Wife Next Summer**  
The present depression will not lift until some time next summer, possibly from three to four months after the opening of spring.

Prosperity and depression have the same relation in their progress to a rolling snowball.

If one industry shuts down others follow suit. If one or a group of businesses pick up, the effect is felt all along the line.

To me it seems as though the government should take the first step out of the rut, not only the national but the state governments as well, by promoting needed public improvements, and thereby encouraging a desire to industry.

What is needed most is to rid business of its timidity. Someone must take the lead.

## WOMAN SHOT THROUGH HEART IN ACCIDENT

LISBON, Me., Sept. 26.—Mrs. Fred King, Jr., 34, was instantly killed yesterday afternoon, when a shotgun was discharged accidentally, the charge striking her in the heart. Mrs. King, the authorities were told, was attempting to climb a fence when the gun trigger caught. Dr. Blinn Russell of Lewiston, medical examiner, pronounced death due to accident.

## The safe way to wash fine fabrics

Tests made by leading makers of delicate fabrics

WITH the greatly increased use of sheer fabrics and very delicate colors in the last few years, the manufacturers of silk materials and garments have met a serious problem in the way women laundered them.

Incorrect washing methods and the use of wrong soap products have ruined numberless garments, and brought the manufacturers many complaints.

Leading manufacturers of fine silks, woolsens, and sheer fabrics, have recently made careful investigation of the laundering of their special products.

As a result of these investigations they unqualifiedly recommend Lux.

## WOMEN DEMAND RIGHTS

National Party Draws up "Bill of Rights"—Want Equal Privileges With Men

WASHINGTON, Sept. 26.—A woman's "bill of rights" proposed for enactment by the federal and all state governments to remove all legal discrimination against women, was outlined yesterday in a statement by the national women's party.

The program includes a new constitutional amendment, declaring that "no political, civil or legal disabilities or inequalities on account of sex, or on account of marriage," shall prevail together with a bill to give women the same rights, privileges and immunities as men.

It was announced that Senator Curtis, republican, Kansas, and Representative Fess, republican, Ohio, would introduce the new proposed constitutional amendment in congress Oct. 1, and that copies of the new bill had been sent to all state chairmen of the women's party except Wisconsin, which already has enacted the law.

Women have the right, upon marriage, to choose their names and have equal voice in custody of their children, legitimate or illegitimate, under the proposed new bill of the women's organization.

Other legal rights for women proposed include: Suffrage, eligibility for all offices, freedom of contract; choice of domicile, residence or name; jury service; acquisition and control of property; control of labor and earnings; eligibility for fiduciary positions; equality in grounds for divorce and immunities and penalties for sex offenses.

All common law disabilities of women would be abrogated under the legislation.

## The New Way to End Corns

The Scientific Method Easy, Gentle, Quick and Sure

A famous chemist, some years ago, discovered a way to end corns. A surgical dressing house of world-wide repute adopted and produced it.

Millions of people use this instant relief and quickly rid themselves of throbbing corns.

The method is Blue-jay—liquid or plaster. One applies it by a touch. The pain stops instantly, and the whole corn quickly loosens and comes out.

Old, harsh methods are supplanted by it. So with corn pads, so with paring. All such ways are folly.

Try Blue-jay on one corn now and see. You will be delighted.

## LOWELL TEXTILE SCHOOL

## Textile School Opens

Continued

workmen renovated the old "barracks" in Kilton Hall and fitted them up for classrooms to be used by the mechanical drawing department. In one section of the "barracks" knitting machines have been installed to further the work of this department.

A complete set of Davis & Farber woolen cards has been added to the woolen department. A new 200 spindle Davis & Farber mule is included in the new equipment.

In the cotton department two new Hanner knitting machines for new and half hose are being installed. A Link & Link knitting machine for production of imitation hand-knit fabrics has also been added.

Once change was made in the faculty since school closed, Charles O. Howarth has been appointed as head of the dyestuff laboratory. Mr. Howarth is a graduate of Lowell Textile school.

CHARLES H. EAMES, President

having been graduated with the class of 1917. He has been employed by the Sayles Finishing company at Saylesville, R. I., as head chemist.

## Address to Freshmen

President Eames met the freshmen and officially welcomed them to the student body of the institution. The president emphasized the fact that to be good members of Lowell Textile

nothing could be neglected or gone about in a perfunctory manner. He also touched slightly upon the athletic side of the school life and what it meant to the students.

Prof. L. H. Cushing, faculty manager of athletics, was the next speaker and he urged every member of the freshman class to enter some branch of athletics. Previous knowledge of sports was not essential, although desirable.

H. H. Hubbard, student manager of the football team, then made a short address in which he appealed to the students to support the football team by coming out for practice and to aid it with support on the field, both at practice and in games.

Capt. Ray Walker of this season's eleven, also urged co-operation of the entering class and requested as many as possible to assist on the Textile campus this afternoon for practice.

After the meeting the freshmen were turned over to the sophomores who in turn gave the newcomers a real good routing welcome to the undergraduate body.

About one hundred freshmen were assembled in the hollow square made by the buildings. They were presented the official freshman cap, a black skull affair with a large red button, and then told to prepare for the worst.

## Initiation Ceremonies

The first order to the quaking members of the 1921 class came in a command "to take off your dogs." This interpreted in English, "to remove foot-gear." In about eleven and a fraction seconds the freshmen were facing the gravel drives shoeless, some probably being covered with socks originated from the very school at which they were now enrolled.

Trouser legs were then rolled up to knee length exposing that part of the male known as the calf of the leg. Coats were ordered reversed, some to show silken linings of exclusive tailoring establishments and others to give away the makeshift lining of those bought off the pile.

All these commands were made more forceful by spacious wooden paddles carefully handled by the sophomores. Soon the chain gang was formed and led by two peripatetic and still cutting freshmen the line of march, headed by two wheelbarrows full of shoes started down towards Merrimack square.

Across the bridge trod the shoeless. A doleful lot they were. Generally at the bridge a squabble takes place as some freshmen realize he is being made fun of too easily. But this year's delegation showed little to characterize its members as desirables for Jack Dempsey's heavyweight crown and so the line marched on.

The tramping feet, tramped, scattered and slubbed on until Andover street was reached. Here a handful of the marchers decided they had enough and managed to break away

from their guardians to lose themselves in the crush.

When the "shorn lambs" reached the city hall, Capt. Walker took it upon himself to start something. He tipped over the wheelbarrows, broke through the line and otherwise gave the freshmen a chance to gain their freedom. Only one or two of the more courageous availed themselves of the opportunity. Unfortunately this pair was collared in the Y.M.C.A. and brought back to be subjected to a generous dose of the paddle.

Too many bespectacled youths were in line to furnish much excitement. Arriving in front of the Sun, speeches and other antics to make them look as foolish as possible were gone through with to the delight of a large number of townspeople attracted by the hub-bub.

Finally the sophs relented and their fellow members were escorted back to the school.

## PLATO CLUB LECTURE

Addresses on Progress of

Local Greek Colony at

Associate Hall

The first public lecture under the auspices of the Plato club, an organization composed of college and high school students, recently formed in was Mr. Alexander N. Soufrans, a graduate from Greek college, author of the Greek-American Philological Calendar, "Greece Revived" and a student of law at the Boston university. Mr. Soufrans spoke upon the condition of the Hellenic province since the independence from the Turkish yoke.

He bitterly attacked all the political and social abuses, saying that the only ambition was to triumph over the opponents, the interest of the country being a secondary matter with them, he said.

The first number on the program was the singing of American and Greek national hymns by the assembly. Miss Cecile F. Gignac presiding at the piano. President N. A. Vurgaropoulos, president of the club and a student at Tufts Medical school, was the first speaker and he spoke at this city, was held yesterday afternoon at Associate Hall, with about 500 people in attendance. The hall had been handsomely decorated with American and Greek flags, while over the stage hung a large picture of President Harding.

Length on the progress of the Greek people in this country. He was followed by Nestor Soufrans, who urged the fathers and mothers of the country to protect and cultivate their children and bring them up as good, loyal Americans. Mr. Anthony Tsougas, a student at the Massachusetts Institute of Technology, gave a brief lecture on the Greek philosopher, Plato, after which was named.

Speaking of the condition of the Greek communities in America, Mr. Soufrans said it is lamentable. The so-called presidents of the communities, he said, fail to look after the people as a whole. In the course of his lecture, he urged the largely upon Americanization, urging his fellow-countrymen to become naturalized citizens. "If we had enough votes," he continued, "we would put some of our representatives in city hall and we would have Market street paved. There are numerous things we would have accomplished if we had the power, so I'll be up to you to become citizens in order to protect your own interests."

The lecture was a big success and the organizers were warmly complimented by the large gathering. The club proposes to hold a series of similar lectures during the fall and winter and they will endeavor to secure the services of prominent speakers.

## AM. PHOTO CONTEST

TO BE EXTENDED

The amateur photographic contest that is being conducted in this city under the auspices of the Lowell chamber of commerce, and which was to be brought to a close Oct. 1, has been extended another month, which means that those who are interested in the contest have until Nov. 1 to take more pictures and submit them to the chamber of commerce.

Assistant Secretary Gallagher, of the chamber of commerce, is receiving new photos every day and particularly interesting and pretty was the set submitted to him this morning by a resident of Willie street. The amateur photographers of this city, who are interested in the contest are reminded that the chamber will donate \$200 in prizes at the close of the contest.

Secretary Wells and Assistant Secretary Gallagher report a very enjoyable time at the convention of secretaries held at New Bedford Friday afternoon and Saturday forenoon.

O'CONNELL DISTRICT BOARD The O'Connell district board of the American association for the Recognition of the Irish Republic held a regular meeting in A.O.H. hall, Middle St., last night with a large delegation present from the ten local councils of the association. The gathering was addressed by James O'Sullivan, who explained those present not to be misled by the false reports of the peace negotiations in Ireland. Michael Sharkey gave an interesting report of the recent field day of the association, which was held at Spaulding park. Routine business was transacted.

## SEPTEMBER WEDDING

Miss Grace A. Martin Be-

comes Bride of Albert J.

Blazon, Popular Assessor

A September wedding of exceptional interest took place this afternoon when Miss Grace A. Martin, a popular young woman of this city, and Mr. Albert J. Blazon, well known attorney and member of the board of assessors, were united in matrimony at St. Joseph's rectory at 130 O'clock.

The ceremony was performed by Rev. Louis N. Haeband, O.M.I. Miss Martin, who is the daughter of Michael G. and Albertine E. Martin, of 509 Moody street, has been employed as stenographer in the office of the Massachusetts income tax collector in the Sun building for a number of years. She is a graduate of the Lowell high school with the class of 1913 and has always lived in Lowell. Mr. Blazon is the son of Mrs. Hermine Blazon and conducts a law office in the Hubbard building. He is a graduate of the Lowell high school and Boston university law school, '05. The witnesses of the ceremony were the bride's father and Dr. Pierre Brunelle. The bride wore Black Canon, crepe trimmed with gold beads and a black picture hat with a white veil. She carried American beauty roses. After the ceremony the couple left on an extended motor tour to the White Mountains, Lake Champlain, Montreal, Lake George, New York city and Atlantic city. They will return by way of the Mohawk trail, after October 13 at 815 Merrimack street.

## U. S. SEN. WALSH AND

BROTHER IN LOWELL

United States Senator David I. Walsh was a visitor in Lowell yesterday for a few hours and had an opportunity to renew acquaintances with a number of his friends here. The real purpose of the senator's visit here was to see Thomas E. Dwyer of Wakefield, for many years a member of the democratic state committee, who is confined to St. John's hospital as the result of an attack of acute indigestion.

Senator Walsh and his brother, Maj. Thomas L. Walsh, attended the late mass at the Immaculate Conception church, where the services were held in informal reception outside the church. Later in the day the senator and his brother left for Boston. Mr. Dwyer is still in a serious condition at the hospital.

## IN STORMY MEETING

Dispute Over Greek Bishop

at Local Community

Meeting

As a result of a vote taken at a meeting of members of the local Greek community held in the basement of the church yesterday, Bishop Germanos Trachanos of New York, who was recently sent to this country to take charge of the Greek Orthodox church in America, will be invited to come to this city next Sunday in an endeavor to iron out some difficulties which are now existing in the local colony.

The meeting was a stormy one as had been expected and it is said that before it was brought to a close a former president of the colony, who is opposed to Bishop Germanos was badly beaten by his compatriots and had not the police interfered it is believed a riot would have taken place. In anticipation of a stormy meeting the members of the community had secured the services of 15 regular police officers and their efforts to bring peace and harmony into the meeting proved unavailing so after a hot session the meeting was ordered adjourned. It was at this point, it is said, that the former president of the community was taken in hand by the opposing party and beaten. No arrests were made.

The meeting was called by President James Danas for the purpose of taking action relative to the assignment of Bishop Germanos to America. As far as is known the local Greek colony is located in New York, who had charge of the Greek Orthodox church in this country during Premier Venizelos' regime, were ordered back to Greece about six months ago by Premier Gonnaris, who assigned Bishop Germanos to the post of St. Nicholas, the head of the two bishops refused to obey orders and accordingly the members of the church throughout the country became separated into two factions, the members of the liberal party remaining with the New York bishops, while the royalists followed instructions from Bishop Germanos.

The meeting was called to order at 2 o'clock with the basement of the church literally filled with members of both parties. The president briefly outlined the purpose of the gathering. Shortly after 8 o'clock it was stated that the former president of the community and member of the liberal party, attempted to speak, but he was prevented from doing so and red hot arguments followed, with the result that the police interfered and the meeting was adjourned. Shortly after the meeting was again called to order and it was voted to invite Bishop Germanos to visit Lowell next Sunday.

## PARKING SIGNS IN

MERRIMACK SQUARE

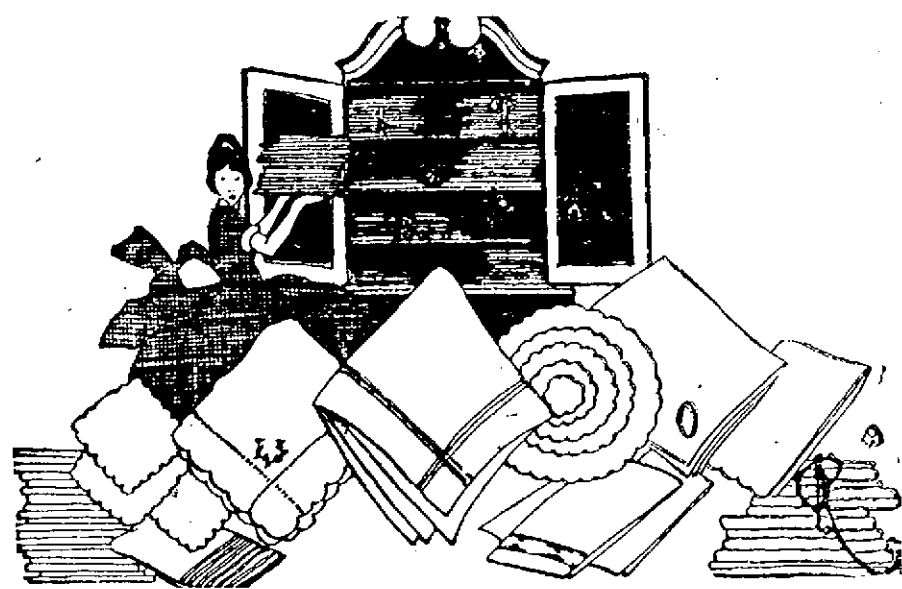

The work of erecting the new parking signs in Merrimack square and other traffic centres in Lowell was started today under the direction of the chamber of commerce and Arthur E. Wells, secretary of the chamber. It will be recalled that several months ago the chamber of commerce traffic committee, in co-operation with the mayor's office, outlined a new set of traffic regulations. These will go into effect in a short time and the signs now being erected will be used in enforcing the new system.

## PORTABLE SCHOOL HOUSE

Employees of the public property department have practically completed their work of erecting a second hangar or portable school house near the high school and at the city garage. Headmaster Henry H. Harris is confident that it will be ready for occupancy by next Monday. The building will be used for mechanics, drawing and commercial work. It will accommodate 25 students at a time.

## OLD WARSHIP BOMBED

2000-Pound Bomb Ends Career

of Battleship Alabama

Off Coast

NORFOLK, Va., Sept. 25.—A 2000 pound bomb ended the career of the old battleship Alabama at 1215 today. A Martin bomber flying over the old warship anchored off Tangier Island in Chesapeake Bay, tore off her mast, destroyed superstructure and turned her over on her side. Six other planes almost simultaneously rained 1000 pound and 2000 pound bombs on the hulk as she went down. Four hit the vessel as she turned over and the remainder landed in the water within 20 to 30 feet.

## TEST OF STRENGTH IN

KANSAS STRIKE CASES

INDIANAPOLIS, Sept. 25.—Both factions among delegates to the convention of the United Mine Workers of America lined up today for the final test of strength in the two Kansas strike cases, the vote being to decide whether Alexander Howat, president of the Kansas district, would be directed to order the strikers back to work.

## CANDIDATES ANSWER

FOOTBALL WHISTLE

About 49 candidates answered the second call for football at Lowell Tech this afternoon. For the past two weeks 15 men have been practicing under the direction of Coach Bert Beckett and Capt. Walker.

At 3:15 a dozen footballs were flying through the air as the new men were attempting to get out the kinks of a soft summer. Only light drill was ordered by the coach but tomorrow he will give them a stiff workout.

## How I Was Wrecking the Lives of My Children

And Suffering Indescribable Tortures Myself Day and Night. A Mother's Terrible Confession.

For some time I had noticed that my two children, a boy of seven and a girl of ten, were becoming highly nervous, irritable and very disobedient. At times even "sassy." I tried various punishments, even whipping, but they kept growing worse. I fought and struggled with the situation. My own nerves were all on edge. The least thing put me into a rage. I was with my husband over nothing as I now look back on them. I was too weak to work or enjoy life, and too nervous and irritable to go anywhere. I was horribly impatient and ugly if I did not get just what I wanted when I wanted it. I often suffered from severe heart palpitation and digestion. I could not sleep at night; I had an almost constant dull aching pain in the back of my neck and head, and frequently a very disagreeable sense of fullness in the front part of my head. I often had severe pains across my back, which made me think I had kidney trouble. I also had tender spots along the spine. I had considered me that a fall I had had several years ago had caused permanent spinal injury, which later proved to be only a case of nerve. I could not begin to describe all the tortures, terrible pains, and great de-vitalizing weakness which I endured. Nobody, not even my husband, seemed to appreciate or value my condition. And very few offered any sympathy, which irritated me all the more.

Finally I went to a doctor and told him my story. What awful children I had, and asked his advice as to what to do with them, and whether or not I should send them to a reform school. After studying my case and talking with me and my children, to my surprise and disgust he told me I was the cause of my children's conditions; that it was all my fault. At this I flew into a rage, but after had quieted down somewhat, he explained to me the terrible condition of my nerves. He told me how the system only manufactured so much nerve force, and that this vital fluid of life was stored in the nerve cells much like electricity is stored in a storage battery, and that I was like an electric automobile after the electricity in the storage battery had nearly all been used up, and the car could therefore hardly move. He said my own highly nervous condition had been a constant drain on the nerve force of my children, and that the constant nervous strain to which I had subjected them had wrecked their ugly sensitive nervous organizations and lives.

## ATTEMPT TO KILL HEAD OF POLISH REPUBLIC

LEMBERG, Sept. 26. (By the Associated Press)—Gen. Joseph Pilsudski, president of the Polish republic, narrowly escaped death by assassination here last night. He was entering an automobile in City Hall square on his way to a theatre after attending a banquet in his honor, when three shots were fired at him. Gen. Pilsudski was not injured, but Count Grabowski, who was accompanying him was wounded in the leg.

The president directed his chauffeur to drive to a hospital, and, after being assured that Count Grabowski's wound was not serious, insisted on going to the theatre as he had intended. He was enthusiastically cheered by the audience when he entered.

The would-be assassin attempted suicide, but was arrested before he could end his own life.

### CHELMSFORD TAX RATE

The tax rate for the Chelmsford Centre water district for the coming year will be \$2.60 per thousand, an advance of 40 cents over last year's rate, which will mean a total tax of \$30.20 on a house with a lot of 10,000 sq. ft. and personal property. The tax rate for the water district was announced Saturday by the water commissioners.

## YEAST BEST WHEN TAKEN WITH IRON

If Weak, Thin or Rundown Try This New Treatment in Tablet Form—Watch the Quick Results

Everyone has heard of the apparent wonders performed by yeast in restoring thin, sickly, and run-down people to health. And now it is found that even more surprising results are brought when yeast is taken with iron, the great blood-builder.

People who for years were weak, pale, anemic, and all run-down are regaining their strength and health almost as if by magic through this remarkably effective combination of yeast and iron. And the best of it is that you can take it in pleasant tablet form—no need to eat yeast cakes, which are so disagreeable to many.

The preparation in which these two great health builders have been combined is known as Ironized Yeast. This contains highly concentrated brewer's yeast which is far more effective than ordinary baker's yeast because it is richer in vitamins. Vitamins, as we all know, is the mysterious element which Science has found to be so absolutely essential to health. Due to modern methods of food preparation, vitamins are missing in most of our commonest foods—and that is why so many of us become sickly and run-down.

If you are suffering from loss of strength, if you frequently become exhausted, if your food has no taste for you, or if you are irritable, thin, pale, nervous, or generally run-down, then try this remarkable new tonic, Ironized Yeast, in most cases bringing a decided improvement within three days. It will usually clear up shallow or muddy complexions within ten days. From everywhere come enthusiastic reports of what it is doing for people.

It is packed in patented Sanitape packages and will keep indefinitely. Its cost is no more per dose than common yeast. Each package contains 10 days' treatment and costs only \$1.00 or just 10c a day. Special directions for children in each package. Made by the Ironized Yeast Company, Atlanta, Ga.—Adv.

## BANISH MOONSHINE

Strong Appeal by Rev. Fr. Heffernan at St. Peter's Church Yesterday

At one of the early masses at St. Peter's church yesterday Rev. Fr. Heffernan preached a strong sermon against intemperance, and appealed for the strict observance of the prohibition law. He stated that the bootleggers have been busy in the precincts of St. Peter's parish and unfortunately too many people had been led into purchasing and drinking the poisonous stuff thus dispensed. He cited the evil effects of drinking this poisonous liquor, showing that it brought on blindness and many other evils, where it did not actually cause death. He exhorted the people of the parish to avoid the bootleggers and not to risk their health or even their lives by drinking "moonshine" or any of the other concoctions now offered for sale for the purpose of producing intoxication.

From the rectory of St. Peter's church a few days ago, Rev. Dr. Keleher and the other clergymen witnessed an exhibition of the dreadful effects of "moonshine" on those who drink it. Five men came along the walk on the South common and sat down near the Edison school. There they began

drinking what was supposed to be "moonshine" from a bottle. The effect on all five was watched with curiosity and something of alarm. In less than ten minutes, two of the men showed signs of helpless intoxication and were unable to stand. Two others were barely able to make their way off the common in about 15 minutes after they had drunk from the bottle. The three who remained were helplessly drunk and they appeared to lose all power of their lower limbs. Altogether they were a most pitiable sight. This was but one of many such exhibitions that may be seen from time to time on the common. It was scenes of this kind as well as others that take place in the homes that led Rev. Fr. Heffernan to make such a strong appeal to his congregation to keep away from the bootleggers, let "moonshine" alone and show a proper respect for the law.

## WORKMAN KILLED IN 70-FOOT FALL

MILLINOCKET, Me., Sept. 26.—Arthur Wray, aged 25, of Lee, Me., was instantly killed yesterday morning by a fall of nearly 70 feet from a staghorn on a new building at the Great Northern Paper company.

He was a riveter's helper, and it appears that a plank on which he was standing gave way. He struck on the concrete foundation, crushing his head.

## SCHUYLER WOULD NOT BE WITHOUT IT

BOSTON MAN SAYS BOTH HIMSELF AND WIFE WERE RESTORED TO WONDERFUL HEALTH

"Tanlac has produced such wonderful results in our home that we wouldn't think of being without it in our medicine chest," said Thomas J. Schuyler of 39 Werrick st., Boston. Mr. Schuyler operates two shoe repairing shops, and has resided in Boston for forty years.

"For nearly four years I had been in terrible condition with stomach trouble. Whenever I ate a thing I was bound to suffer afterwards, and I got where I just dreaded to go to the table. Indigestion, bloating, shortness of breath, and severe pains in the pit of my stomach simply made life miserable for me. I couldn't half sleep at night either, and was so weak and used up that I was just about 'all in.' But a few bottles of Tanlac has just the same as made a new man of me, for it has rid me of all my troubles, and made me feel thirty years younger. My stomach is in as good condition as when I was a school boy, and I never know what stomach trouble was then. I sleep so sound at night that I don't wake up until someone calls me to breakfast. Why I never felt better in all my life than I do now, and my wife has gotten wonderful results from Tanlac, too. We both think it's the best medicine under the sun, and are all the time telling our friends about it."

Tanlac and Tanlac vegetable pills are sold in Lowell by Green's Drug Store under the personal direction of a special Tanlac representative, by Wright Drug Co., Billerica, Mass.; A. D. Falls, Chelmsford, Mass.; Snow's Pharmacy, Concord, Mass., and by the leading druggist in every town.—Adv.

## TRUCK AND CAR COLLIDE

Early Morning Accident in Westford Street Causes Damage to Electric

No-Accident Week got a rather inauspicious start today when a few hours before the mill bells and whistles of the city shrieked the announcement that the safety campaign was on, a collision between an electric car and auto truck occurred at the junction of Westford and Windsor streets. A New Hampshire truck, thought to have come from Nashua, was coming through Windsor street, toward Westford at 6.15 when an out-bound Westford street electric was just about to approach the street. Edward Lussier, one of the oldest motormen employed by the local branch of the Eastern Massachusetts Street Railway Co., was operating the car and claims to have stopped as soon as he saw the oncoming truck which attempted to pass in front of him. The forward part of the truck got out of danger in time, but the rear end hit one corner of the electric and did considerable damage. There was but one passenger in the car and nobody was seriously injured. Operator Lussier received a few minor injuries from flying glass. However, he was able to continue work.

The collision held up traffic for a short time. The damaged car was taken to the end of the line and replaced by another.

## AMUSEMENT NOTES

(By the Theatre's Own Press Agents)

**R. F. KEITH'S THEATRE**  
For the annual visit of WILL M. Cressy and Blanche Dayne to the R. F. Keith Theatre, this week, Mr. Cressy's latest comedy playlet, "Without a Will There's a Way" will be presented.

The announcement that Cressy and Dayne are to be with us for a week ought to come pretty near to packing the theatre twice daily. This pair of sterling players folk annually make a tour of practically all of the big vaudeville theatres in the country, and wherever they appear they receive the greatest acclaim. There is a certain love goes out from audiences to them, for for many years they were personally identified with the late Denman Thompson in "The Old Homestead." Mr. Cressy played the part of "Cy Prime" for a long time while Miss Dayne was the "Hickety Ann." Since leaving the legitimate stage Cressy and Dayne have played from coast to coast many times in the inimitable playlets which Mr. Cressy has written. They are based on human themes, with the most delicious comedy interludes, and they are always perfectly presented. They are everywhere recognized as headliners, and furnish a perfect topical attraction for this week's very good bill.

Joe Darcy, who is second attraction on the week's bill is known far and wide as the singing songwriter. One of his greatest hits was the one called "Oh, Lala, Oul, Oul, while another has been "Silent Sleep, Dear Old Mother of Mine." Darcy writes half a dozen new numbers each year, and puts them over in vaudeville. Incidentally he is a comedian of more than average worth.

Nickerson and Shirley will bring their novelty of vaudeville, "My Mother's Masquerade," to the theatre for this very good bill. Played in the form of a comedy, it is nevertheless a novelty playlet which isn't revealed in its essence until the very end. There are some most unusual happenings during the time it is being played.

Al Hagg and Earl Lavery introduce their whirling piano playing and accordion numbers a very good bill.

### OPERA HOUSE

One of the most absorbing and highly dramatic stock offerings of the whole season is scheduled for presentation by the new Lowell Players at the Opera House for the week, beginning with the first performance tonight, "Dangerous Love," a play filled with love, mystery, thrills and all of the elements that go in the making of a genuinely successful stage vehicle. It is the creation of Charles E. Blaney and Norman Houston and is in three acts. It is a play with an extraordinary theme, daring in its delineation of character and unfolding the secrets that all women keep locked up in their hearts. It is sure to win the commendation of all. To reveal the story would be depriving the theatergoers of the pleasure that will be theirs. Suffice it to say that it is a gripping, tense and human recital of events of the present day and could easily be duplicated in many homes. If you are a woman you will sympathize with the girl character and you will marvel also at her sacrifice and generosity in her indifference to "Dangerous Love." A life is at stake—the life of one she loves better than her own and she shows true womanhood in her actions.

When the play was originally produced at the Republic Theatre, N. Y., John Harold, vocal dramatic supervisor of the Lowell Players, had the supervision of it, so that there is no one better fitted today to present it locally. He will give it careful attention and should reflect once again his unusual and artistic capabilities as a producer-director. Many of the boys who had experiences overseas can testify to cases similar that develop in "Dangerous Love." It has other phases of life that appeal to all.

Ladies' tickets for two seats for Monday night's performance only. Tickets for the week's performances are sell-

ing fast and it's advisable to make your reservations as early as possible. Better still place your name on the subscription list. It costs no more and you will be better satisfied.

### RIALTO THEATRE

The public will welcome the glad news that the Rialto theatre is opening up once more. The theatre has been remodeled and painted and the interior has been made to look like new and this afternoon Manager Prager will throw the doors open for public approval. Manager Prager has secured for his leading attraction the Spanish play "The Passion Flower," with Norma Talmadge starring in the leading role. It is a picture you will all want to see and, coming with the first opening of the theatre, a crowded house should be the result. "The Passion Flower" is released through the Associated First National Pictures.

### THE STRAND

Apart from the regular picture program at The Strand for the first three days of the week, starting with matinee today, will be the first showing of the wonderfully interesting Shevlin-Kloby light pictures taken at Salem recently. This added attraction will surely prove interesting to the patrons, and should serve as a novelty to the women folk of Lowell and vicinity. During the past two years large numbers of the "fair sex" have been attending these "Demonstrations of the many art of self defence." Lowell women will have the first opportunity of seeing a championship bout in pictures.

The regular bill will include the big Rex Beach comedy drama "Going Some," and Harry Carey in "Desperate Trails." Both are excellent photoplays, and the usual comedy and Weekly will also be shown. It's a big program and one that will surely appeal to all classes of patrons. Remember that this special program is for the first three days of the week.

MERRIMAC SQUARE THEATRE

One of the strongest and most de-

lightful photoplays in which Thomas Meighan, noted Paramount star, has been seen this season is "Cappy Ricks," the feature attraction at the Merrimack Square theatre for the first half of the week. Mr. Meighan is seen as a seaman in a colorful, dramatic and thrilling story. It is a pictorialization of Peter B. Kyne's story of the same name. The other big feature for the first part of the week is "The Golem," a wonderful European production, depicting a celebrated legend of medieval Europe. A comedy and the International News.

## MOONSHINE STILL IN BERKSHIRES

PITTSFIELD, Sept. 26.—Federal Prohibition Officer Henry E. Foley, in a raid on a Russian settlement in the wilds of Washington yesterday afternoon, discovered the first mountain moonshine still found in this section of the Berkshires. He arrested two men on charges of illegally manufacturing liquor.

At the home of Henry Arndt, where 10 gallons of moonshine were found, the federal officer followed a trail back into the mountain, where he found a still in a tent. About 100 gallons of mash and a barrel of molasses were seized. At the home of John Conzowicz 10 gallons more of moonshine, a still in full operation, three gallons of mash and three barrels of molasses were found.

## PARIS ROBES FOR WEAR AT HOME

NEW YORK, Sept. 24.—There seems to be a direct line between my lady's boudoir and Paris.

Never has the robe d'intérieur, the house gown, the tea gown, the room gown been seen in such elaborate and beautiful design and detail.

One room gown for lounging, of yellow Salome velvet, is trimmed in natural monkey fur of white and black. A French drape made in two pieces, forms a "V" neck in the back line. The drape fastens at the side with an original gathered effect, finished with three huge chenille tassels.

Another original breakfast negligee (right) is of heavy rose crepe de chine with lacy skirt.

The girdle is of silver roses. But the unique effect is the breakfast cape which ties with acorn-shaped tassels.

A gown quite lovely enough for home teas and dinners, is that on the left. It is mulberry brocade velvet combined with georgette. It has jet beading, flowing georgette cape and sleeves, and graceful side drapes.

## Police Raids and Arrests

Continued

tators, who apparently were disappointed when at half past ten Assistant Clerk Toye announced that the day's session was all over.

Continuances were asked in the cases of Lazaros Papanatos and Frank A. Cote, both charged with keeping liquor with the intent to sell. The

former was arrested in a raid conducted on premises off Elm street Saturday night by Sergeant Michael Whinn, and Officers Clark, Moore, Cooney and O'Sullivan of the liquor squad. Seizure of eight pints of moonshine was made by the officers, who, however, had to perform some clever sleuthing work in order to locate it. The liquor was found hidden under the floor of the room, neatly concealed under well matched boards. His case will be tried October 8 while in the meantime an analysis of the liquor is being made by the state authorities.

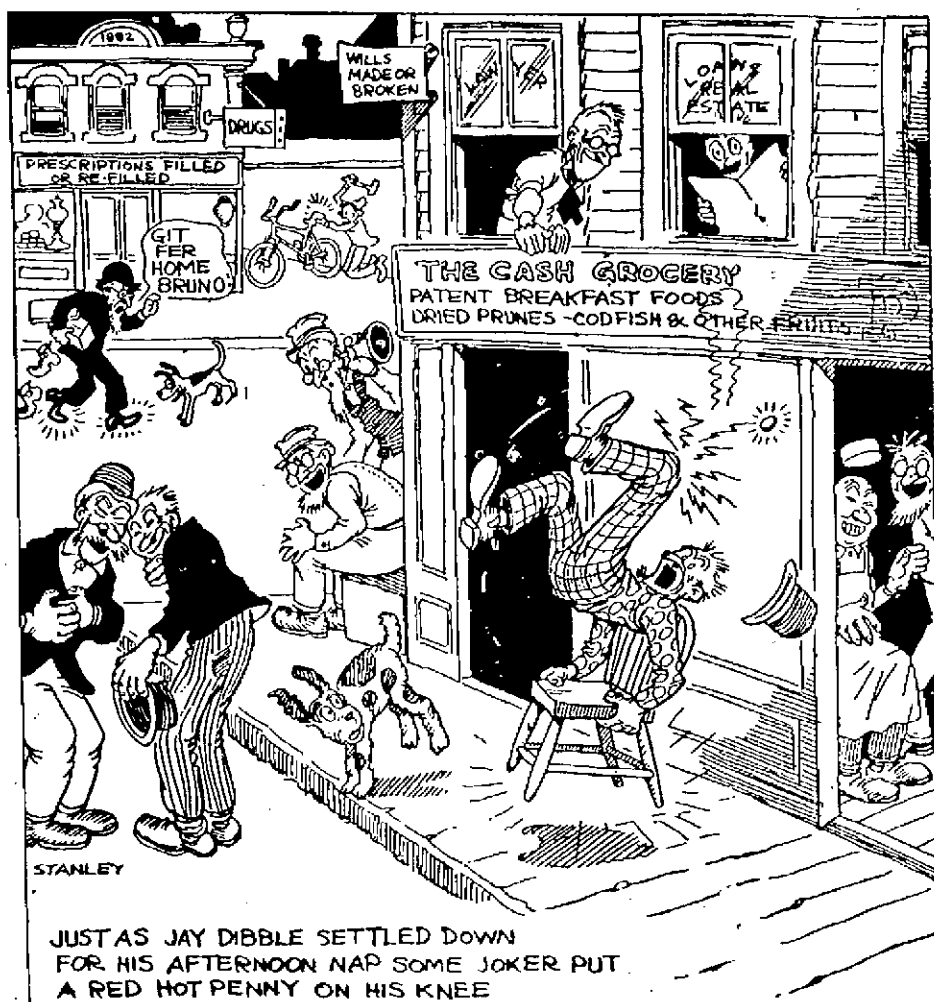

## Federal Officers Raid

Frank A. Cote was arrested Saturday in Tewksbury when federal officers, under the direction of Enforcement Officer Harold D. Wilson swooped down on the accused man's premises and confiscated a quantity of moonshine and considerable cash. Officer Kelley of the federal department told the court the raid was made at the complaints of neighbors who said the man was conducting a selling nuisance. Cote, as well as Papanatos pleaded not guilty and his case was also continued to Oct. 8.

## Alleged Opium Raid

The vice squad Saturday night descended on a room in a Merrimack street building and besides arresting Willie Wong, a local Chinese laundryman, charging him with smoking opium and keeping an opium resort, obtained a

small box of the dope which will be used as evidence.

Wong, in court this morning, asked for a continuance and was given until next Thursday to prepare his case.

The raid on this place was the result of many weeks of constant watch on the part of members of the vice squad who say girls were in the frequent habit of entering and leaving the place. When they entered the room Saturday night the officers expected to find men and women in the place besides the supposed owner, but to their disappointment only found the Chinaman. He was lying in bed peacefully puffing at his opium pipe, the police say. Since last summer when federal officers seized a good quantity of opium in a house on Lee street, the local police have been on the close lookout for like offenders. The place raided Saturday night was one of several under suspicion.

## Free-for-All Fight

As a sequel to a near "free-for-all" in Liberty square Saturday night, Frank J. Normande was in court charged with assaulting an officer, besides being charged with drunkenness and Jas. McTiernan was arraigned for interfering with a police officer. The two were allowed continuances until Oct. 1. Officer Mahan, the patrolman subject of the assault, in an interview with a Sun reporter stated that he was arresting Normande for suspected larceny when a gang of about 25 young men swarmed around him and attempted to rescue the prisoner.

He said Normande, who was intoxicated, requested the court to allow him to rejoin his regiment, which, he said, was under orders to leave for New York today or tomorrow. But when Patrolman Mahan told the judge that he arrested Healey after a milkman had reported to him that he had run over the soldier's unconscious body in the small hours of the morning, the court ordered the defendant held until tomorrow, while police authorities would notify the soldier's superior officers of his arrest. "If they don't come after him by tomorrow, I'll send him to the house of correction," concluded the judge.

A drunk charge against Albert Scales was postponed to Thursday.

## Drunk On Motorcycle

Stanley Padnapinski, charged with drunkenness and with operating a motorcycle while under the influence of liquor, apparently was all set for trial, but when the court, through an interpreter told him that he was under arrest for a serious offense and might be sentenced to the house of correction and asked him if he didn't want a continuance so that he might obtain counsel, Padnapinski replied he would like to secure a lawyer and requested the case put over to October 14. The court granted the request.

## THREE SPIES ESCAPE

PARIS, Sept. 26.—Police all over France are searching for Paul Couvler, German spy serving ten years at Jile prison, who escaped with two other spies. Duplicate keys and a rope ladder were used.

## WOOD SPOILS LAWS

SUVA, Fiji, Sept. 26.—City authorities are objecting to the practice the police have in leaving their firewood on the municipal lawns along the waterfront. The appearance of the lawns is being spoiled, they say.

Tiernan tried to interfere with the officer's execution of the arrest, the police allege. Patrolman Mahan could not disperse the crowd, he stated, until he drew his gun and fired one shot in the air, threatening to shoot at the gangsters if they didn't disband. He succeeded in bringing the prisoners to the station with the help of several other officers who were attracted to the scene. Officer Mahan showed the court injuries he sustained about the face and head at the hands of the alleged ruffians.

## For Non Support

The non support charge against Theodore Bramowski was continued until next Friday.

Although thirteen arrests for drunkenness were made over the week-end and only seven were haled into court, the others having been granted another opportunity to tread a straight path. Stanislaw Janocha didn't object to paying a \$10 fine imposed for drunkenness, but Fred L. Woodward and George Burney appeared from sentences of two months to the house of correction. It availed the former naught to plea with Judge Enright to give him a chance to finish a certain job he had undertaken in Lowell, promising, at the same time, to leave the liquor alone.

John E. Bulmer, also in for drunkenness, came in for a month's sojourn to the house of correction.

## Soldier's Sad Plight

John J. Healey, a soldier, in for intoxication, requested the court to allow him to rejoin his regiment, which, he said, was under orders to leave for New York today or tomorrow. But when Patrolman Mahan told the judge that he arrested Healey after a milkman had reported to him that he had run over the soldier's unconscious body in the small hours of the morning, the court ordered the defendant held until tomorrow, while police authorities would notify the soldier's superior officers of his arrest. "If they don't come after him by tomorrow, I'll send him to the house of correction," concluded the judge.

## No Accident Week

Continued

campaign is being handled chiefly by the chamber of commerce in co-operation with the police, mills, municipal officials, street railway company and various organizations. The week's program will include lectures by traffic officers, talks in the schools and various other means whereby the public will be made to realize the necessity of care in order to avoid accidents.

A large consignment of posters has reached the city and with the assistance of Boy Scout the campaign authorities have succeeded in distributing them in all parts of the city.

One of the unpleasant features of the day, which somewhat marred the success of the opening of the campaign, was the serious accident in South Lowell a few minutes after the bells and whistles had sounded when a man was struck by a train near the entrance of the U. S. Cartridge Co. plant and seriously injured.

Dr. T. B. Smith, medical examiner,

has reported to the chamber of commerce, that in Lowell during the past 12 months, from Sept. 1, 1920, to Aug. 31, 1921, inclusive, a total of 69 persons have been killed by accidents. This makes an average of more than five persons killed every month for the past year.

It is such figures as these that bring home the seriousness of the situation and the necessity for such a campaign as that which got under way today. In 1915 there were only four fatal automobile accidents here, while in 1919 the number had increased to 21. The slogan of the campaign is "Don't Get Hurt." This slogan will meet the eyes of people in all parts of the city. For instance, at the entrance to the rooms of the Knights of Columbus there is a big poster urging members to "watch their step" and to exercise caution in avoiding accidents. A similar poster adorns the entrance to the Y.M.C.A. Other organizations are also falling into line.

At the suggestion of Supt. Molloy, the local schools are taking a prominent part in the safety campaign by means of daily instruction in safety first measures, the appointment of safety patrols, etc.

## Bandits Routed in Battle

Paul Shea, a special policeman who was accompanying James Lewis of Stamford, Conn., a cashier for the New York, New Haven & Hartford Railroad, on one of their weekly trips from New Haven to New York with money. Lewis had a satchel containing cash variously estimated at from \$15,000 to \$60,000.

As they were nearing their

destination on the first floor of the office building, above the railroad terminal, three men behind them yelled: "Hello, you guys."

Forthwith, one of the trio hit Shea on the head with a piece of leadpipe done up in newspaper; another struck Lewis with a similar weapon. Lewis fell unconscious, the satchel of money beneath him. Shea drew his revolver and fired all six shots. The three robbers also drew revolvers and two of them emptied the guns. The other's pistol stuck.

The police found a revolver on the floor with a bullet mark on the handle, indicating, they thought, that Shea had shot it from Malloy's hand.

The robbers took flight because of Shea's shooting. Shea seized Malloy and beat him on the head with his empty revolver. The other men escaped by running down the stairs, eluding a police cordon which surrounded the station as soon as word was received of the holdup. A pool of blood at the door to the stairs on the third floor, indicated that one of the fleeing robbers had been shot.

Lewis was only slightly hurt but Shea had to be taken to a hospital. This was the second unsuccessful attempt to hold up Lewis and Shea on their cash-carrying trips.

## NO ACCIDENT WEEK

This week throughout the state is to be observed as "No Accident Week." Not that it is expected that the week is to be without accidents of any kind; but the aim is to have everybody do as much as possible to prevent accidents by the exercise of care, caution and foresight.

Taking dangerous chances is one of the greatest causes of fatal accidents. Take, for example, a young man attempting to swim across the Merrimack river without being quite certain that he can perform the feat. He takes his life in his hand. So to speak, for the reason that if he becomes exhausted before reaching the further side, he must sink because he can't go ahead, and it is too far to turn back. Many lives have been lost in just that way in the Merrimack river. Some years ago The Sun published a list of drownings, showing that so far as recorded up to that time, 1000 lives had been lost in the waterways of Lowell and vicinity. That means that Lowell has lost a heavy toll in human lives for having rivers and canals running through its residential districts. Most of the victims were children who fell into the rivers and canals while at play, but there were many young men who lost their lives through recklessness.

"No Accident Week" aims to prevent accidents by the exercise of care. With 50,000 lives lost in the United States in the course of the year through accident, it is no wonder that campaigns of education should be conducted for the purpose of preventing accidents. Many of these were industrial accidents in which factory workers were the victims. Such accidents are not now nearly as numerous as formerly, because the various states have enacted laws compelling the owners of factories to put safety devices on dangerous machinery in order to minimize the danger. In our local mills, there are not nearly so many accidents as formerly because the dangerous machines are well guarded and because the operatives are taught not to tamper with machines in motion. The Safety First work has spread far and wide with the result that there has been a very gratifying reduction in the number of accidents. This "No Accident Week" is likely to emphasize how well this safety work has been done in this state. In the present movement let all hands join with a determination to avoid accidents and, if possible, to have a week in which no serious accident will mar the success of the campaign in this state.

## THE SHEPPARD-TOWNER BILL

The Shepard-Towner bill is still the subject of heated discussion and enthusiastic arguments for and against. The Sun has objected to this measure for two distinct reasons. First, because it would increase the bureaucracy at Washington, which is already too extensive; second, it would be an unwarranted interference by federal authority in matters that should be attended to by the states. There is already too much interference by federal authority with functions of government which properly belong to the states. This intrusion upon state rights is growing from year to year. As to the views of certain opponents of the measure, the following from Senator Watson is illuminating:

"Half the senators who voted for this bill are ashamed of their surrender of American womanhood to the dupes of European Communists. Governmental supervision of pregnancy, childbirth and babyhood is not an American product at all. It is an importation from the free love and animal sexualism. It robs the home of its privacy; the marital bed of its sanctity; the cradle of its divinity. It turns domestic life into a cattle-breeding establishment, stripped to bestial nakedness, unveiled to the obscene gaze of the vulgar."

The next bill, following this one will be written in terms of "must" and "shall" and it will tax you to the extent of a billion."

This bill has been passed by the senate and is now pending in the house. It should be defeated. It is just and right that dependent mothers should be protected against want and provided with proper medical treatment when that is necessary but this should be attended to by the states and in reality is done by most states much better than the federal government can do it. If the federal authorities entered this field most of the needy mothers would be neglected because of the confusion of authority and responsibility.

Miss Alice Robertson of Oklahoma in a speech in congress, one of the few who has made them, presented this very accurate view of the measure:

"As the bill stands, its only purpose is to build up more of a federal machine, and to let the treasury under the guise of a worthy object."

"The bill does nothing other than appropriate money. No restrictions are thrown around its expenditure and no scheme or skeleton of procedure devised for its operation. If the money were left off, one would be at a loss to ascertain its purpose. Its entire plan is left to conjecture. In a law court it would be thrown out for indefiniteness and uncertainty."

"But even otherwise, the federal government is going to try to make money projects, and I do not believe the American people will much longer stand the continual invasion of the home and of personal rights and privileges. In other words, they do not want the German system of paternalism."

It is to be hoped that the next house will bury the measure in irreconcilable defeat. The senate passed it under the pressure of a misguided committee of women uplifters.

## THE GAS PROBLEM

The price of gas is still too high. The complaints from consumers are still numerous. The reduction of 12 1/2 per cent or 20 cents per 1000 cubic feet is to take effect November 1. It should have taken effect at least two months earlier. Because of the delay we understand many voters will favor the petition for municipal gas on October 11. That would not afford a remedy, but on the contrary, if carried out, would only make matters worse. Municipal ownership of gas plants has been a very expensive failure in the great majority of places in which it has been tried. If The Sun felt that there would be any hope of betterment under municipal ownership, we would favor that policy. But with the costly experience of other cities before us, we feel that the proposed purchase of the local system, or still worse, the establishment of a new system would end in financial ruin and disaster. It would probably push the tax rate up to \$40 in a few years and would cause an increase of rent for all the real estate in Lowell. In addition to that, the price of gas to consumers would be increased for the reason that running a gas plant is a very technical business, one in which expert knowledge is needed at every step and where mismanagement would be more costly than in any of our municipal departments.

The best way to handle the gas company would be to insist on getting as low a price as prevails in any other city similarly situated in this state, even if we have to call an investigation same as the city of Lawrence.

## DIVIDING THE DOLLAR

You spend a dollar and wonder how much of it goes to the fellow who actually produced what you buy. Congressman Sidney Anderson also wondered. It worried him and he investigated.

He says his findings show that the consumer's dollar is divided as follows: 37 cents for cost of production, 14 cents for profit, 43 cents for "service."

Service, however, includes packing, transportation, selling expenses, insurance, rent, wages and overhead.

Those cannot be done away with. But something is radically wrong when it costs a third more to get commodities to consumers, not counting profits, than it does to produce them.

The consumer must be brought closer to the sources of production or otherwise the freight rates and other overhead charges must be cut down.

## IS IT TOO LATE?

Has this country started in too late to alleviate the sufferings of its unemployed? True, cities and towns of the east have at last been awakened to the fact that they have an unemployment problem on hand. This condition has existed for a long time; but of late, or within the past three weeks, there has been a great hustle and bustle from all sides to help those out of work. It is doubtful if much can be done for the unemployed before the arrival of cold weather.

In the summer months when everyone was warm, little thought was given to the winter by the masses.

A few far-seeing men looked into the future and warned the public of what must come. Few heeded the warnings. Now the public at large is astir in an effort to rectify its negligence. It is hoped they will accomplish something material before cold weather.

## FORDNEY BILL CRITICIZED

The publishers of the country are up in arms against the proposed tariff on books which is set at 20 per cent. In the pending Fordney bill. Under the American valuation, this might amount to about 50 per cent, which would be almost prohibitive. Usually American producers are in favor of such a tax against imports that would be sold in competition with their own output. But in this case the tariff is so unreasonable that a very general protest has been raised against it. If the worst comes, however, we can get along fairly well without books printed in Europe, so that there is no more serious complaint against the bill. It is a much better measure than we had anticipated.

## THE OPPAU HORROR

The South Lowell explosion that caused havoc hereabouts was not a circumstance in the fearful shock that blew up the nitrate factory at Oppau in Germany. This explosion offers a hint as to how the next war will be conducted—nitrate dropped from the sky to destroy populous cities and armies in the field. Who will say that Henry Ford is a visionary dreamer in his desire to develop the nitrate plant at Middlebury? Only the dearest sympathy can go out to the sufferers.

The pace was too fast and the liquor has driven me crazy—so wrote Grace Lavis of San Francisco as she prepared to kill her former friend and later to kill herself. She was truly crazed not only with the fast life and liquor but also with jealousy because the woman she had just divorced had been in the affections of her former partner. So deadly many of the divorce cases that form the sorry side of high society.

We are not prepared to accept the dictum of the legislative committee on water supply that the water drawn from our driven wells and delivered to consumers is charged with iron and manganese. It is true that as it comes from the wells, it is so charged but practically all of these substances are extracted by the filtration process. We say that because we have the best water supply in the state.

## SEEN AND HEARD

Mother can preach at home while father can them at the office.

Adam was the first and only man to fall for "the only girl in the world."

The difference between movies and vaudeville is that at the former the audience does the talking.

When a real nice, bawdy, lightsome day springs round one thinks of the favorite spot picked out during the vacation period.

Solomon's Wisdom

"I wonder how Solomon got his reputation for wisdom," said the large wife. "I am sure Solomon was not through anything he thought out for himself," said the meek little husband. "You see he had a great many wives, and he must have weighed very carefully to their advice."

The Greedy Tramp

Asked a Tramp—"Please, ma'am, could you spare a copper?" "Here you are, my man," replied the woman, offering a nickel. "But don't think I give you this because I think you are a good fellow," said the tramp. "It pleases me to do so simply because if it's how you feel about it, why don't you make it a dollar and have the time of your life?" returned the tramp.

Black off Old Chip

Associate Justice Day of the United States Supreme court is long on law, but somewhat short in nature, and the zeal with which he has pursued the legal meaning to its fair in dusty books and tomes has dried his kindly face. He is a big man, a big man who is twice as big as he is physically. The associate justice took the son up to the supreme court and introduced him to the other members of the tribunal. Chief Justice White was about the last man they ran into. The chief justice with an exceedingly kind twinkle in his eye, looked up from the small spare figure of the father to that big form of the son. "Well," said he with a smile, "is your son a block off the old chip?"

An Encouraging Judge

A somewhat incompetent lawyer was defending a hopeless case. He became more and more nervous as the time for his address to the jury drew near. As hopes of winning his case dimmed with every word he uttered, the poor counsel grew so nervous that he could not hold his papers without a butting and fumbling that made him look only less ridiculous than he felt. Then the address—"Your honor, my best gentlemen of the jury—Then, he coughed and muttered, "My unfortunate client, who stands before you charged with the murder of a woman, a longer pause and then a third attempt, beginning: "My unfortunate client—" but again the same nervous habit, which was broken by the judge, who remarked gently, "Proceed, Mr. Jones. So far the court is with you."

He Knew

"If I gave you five rabbits, my boy," asked a man.  
Of a youngster he met one day.  
"Then gave you another, how many'd you have?"  
"Why, seven," the lad said straightaway.

"Seven? How seven? I don't understand."

"The man inquired at once.  
"If you'd solve such a sum in that way at school."  
"I'm sure you'd be classed as a dunce!"

The little boy smiled and said "I don't know."

"I am sure my answer's correct. For I have one rabbit already at home? What else could I say, d'you expect?"  
—Frank A. Seord in Farm Life.

## MAN ABOUT TOWN

I took a little automobile trip to Montreal, Quebec City and St. Anne de Beaupre recently, and was amply repaid for my wanderings. After crossing the international boundary line we were greeted with a large sign which read "Your First Chance" which stood opposite a former Lowell man's saloon. From there, after reporting our auto number to the government authorities, we traveled along the King Edward boulevard through all the Quebec towns, each of which contains at least one church—for 150 miles to the city of Montreal. At Montreal we visited the famous Mount Royal chapel, where Bro. Andre is stationed, Riverside boulevard, Altremont and Notre Dame church, which was finished in 1878 and seats 12,000 people. It contains huge balconies and resembles an opera house in its architecture. The architect, James O'Donnell, is buried in a crypt of the church and was a convert to the Catholic faith. From Montreal we hid ourselves to Quebec City and hired a guide for a day. The first place we visited was the citadel and we traversed the rest of the city down to Little Champlain street, the narrowest street of all, and one which the guide said escaped the ravages of Indians during the epidemic a few years ago. The great Quebec bridge was an object of special interest, the total length being 3235 feet, width, 85 feet, height above piers, 110 feet; length of center span, 139 feet; total span, 616 feet and total cost, \$22,000,000. This is the bridge which fell so often with a loss of lives to many people. The Protestant hotel, Dufferin terrace, looked at night, is the scene of one of the great promenades in the world and extends 1125 feet in length and 115 feet above the St. Lawrence, this bridge reflects all the life of the city. We next turned to the little town of Beauport through an interesting road which was antiquity punctuated with thatched roofs on many houses. This town is considered a replica of many in northern France, the architecture being of Renaissance type. The road's all slant upward at the end of the houses from St. Lawrence. In winter snow storms it is not necessary to remove the snow, as it blows off clean and hence saves labor. Next stop was at Keat house which we went through with guide. The Duke of Kent, Queen Victoria's father, lived here, and seated on the piazza, we gazed and viewed Montserrat, the view which looked more beautiful than ever with the sun shining on them in rainbow hues. On to St. Anne de Beaupre, where two miracles were performed during the first week of September, one case being a man who was paralyzed three years and who is to enter the priesthood, and another all forms of jewelry in glass cases at the gratings of the people cured. From this famous shrine we turned our steps homeward and our route covered the Franco-Notch, N. H. and through the Little towns to Lowell, Mass.

## BOYS CAUSE CAR DERAILMENT

A Lawrence-bound electric car was derailed near the Brookside turnout about 10 o'clock Saturday night, causing considerable delay in traffic between the two cities and shaking up passengers on the car. The derailment was caused by the placing of stones in the switch at the turnout. Manager Thomas Lees of the Lowell district of the street railway company is of the opinion that the stones were deliberately placed there by boys. He has reported the matter to the Dracut police who are investigating.

## EDITOR STRICKEN AT DANTE CELEBRATION

HAVERHILL, Sept. 26.—Michael R. Salerno, aged 35 years, 107 Newbury street, Lawrence, editor of the Italian newspaper in that city, was stricken ill with a hemorrhage while attending the Dante observance at the Haverhill high school yesterday afternoon. He was removed from the hall and later taken to the Hale hospital in the police ambulance, but died before reaching that institution.

Associate Medical Examiner F. W. Anthony gave death as due to pulmonary tuberculosis. He had come to this city to speak at the Dante celebration. More than 1000 members of the order of the Sons of Italy of this city, Lawrence and Lynn, took part in the parade which was held yesterday afternoon in observance of the sixth centenary of the death of Dante. The members of the order were assisted by local Italian societies. Previous to the parade exercises were held at the Italian hall on River street, where the Vittorio Emanuele society was presented an oil painting, "The Divine's Return," by Rocco De Leo of this city. S. Jannelli was chairman of the meeting and addresses were given on the life of the Italian poet by Prof. A. Dentamaro, C. Chiampi of Boston, and A. Salvini of this city.

A. Bagni was marshal of the street parade, which was reviewed at Italian hall by Mayor Sanders and the municipal council. Exercises were then held at the high school hall, where a \$500 bronze statue of Dante and pedestal were presented to the school, by C. Chiampi, of Boston, in behalf of the local sons of Italy. The gift was accepted by Arlington I. Clow, principal of the school, and addresses were made by Alderman Albert L. Bartlett and Judge O. J. Carlton.

A bust of Dante was also presented to the Haverhill public library. This morning a band concert was given at the Italian hall on River street and at the junction of River and Washington streets. The Dante observance, which opened last evening with band concerts, will conclude tonight with a fireworks display.

## WHAT'S THE MATTER WITH US, ANYWAY?

BY SAMUEL GOMPERS  
President, American Federation of Labor

The present industrial depression is essentially different from the cycles of financial and industrial depression which have come with some regular frequency.

It is the magnitude of the present situation that makes the problem so acute. The fundamental cause is the same—faulty judgment on the part of those responsible for management. The degree of responsibility for management that has resulted in the various contributing elements concerned in production varies with each industrial establishment.

Bad management means waste—unnecessarily high costs of production. This waste is cumulative and finally becomes too heavy for the productive processes to carry.

Then comes the crash!

War Production

During the war economy of production was a secondary consideration. The dislocation effected by war production was worldwide. A serious strain has been placed on all the elements comprising industry.

The calamity that has resulted will serve a good purpose if it leads to earnest study and an evaluation of the basic principles upon which industry, commerce and finance are organized, together with an understanding of the human beings whose intelligence and labor power are necessary to coordinate the materials and forces of industry.

America is rich in natural resources, gold, machinery, productive establishments and commercial agencies.

Service

If we have sufficient wealth of intelligence and human creative ability we can put our material wealth at the service of humanity of the world.

The function of wealth must be service. There are barriers of prejudice, precedent, unearned income that interfere with the use of credit and wealth for the fuller volume of production in the service of humanity.

In order to eliminate industrial and financial depressions, we must eliminate practices and institutions that prevent the ideal of service to humanity from being the controlling principle in production and human activity.

## BOYS CAUSE CAR DERAILMENT

A Lawrence-bound electric car was derailed near the Brookside turnout about 10 o'clock Saturday night, causing considerable delay in traffic between the two cities and shaking up passengers on the car. The derailment was caused by the placing of stones in the switch at the turnout. Manager Thomas Lees of the Lowell district of the street railway company is of the opinion that the stones were deliberately placed there by boys. He has reported the matter to the Dracut police who are investigating.

## Berton Braley's Daily Poem

JUST A REMINDER

Once on a time, not long ago,  
Our land was thrilled with high romance;  
Our soldiers marched to meet the foe  
And gave the world: the soil of France.

With blood of Yankee lads was wet,  
Shed in the cause they battled for,  
It is no easy to forget—  
Once on a time we had a war!

The sacrificial spirit died  
And while the world cried out for aid  
We held aloof, we stood aside  
Talking of stocks and bonds and trade;

Mammon resumed his ancient thrall,  
We showed no seeming to abhor,  
And only vaguely we recall  
Once on a time we had a war.

Shall all our dreams be swept away  
Upon a tide of riches swirled,  
Are we content to let today  
The welter of the world?

By selfishness Rome's empire fell:  
Is money all we're living for?  
Lord, help us to remember well  
Once on a time we had a war!

SLAIN AT DOOR OF HOME

Boston Man, Father of Five,  
Shot to Death in North End  
Slayer Escapes

BOSTON, Sept. 26.—As he entered the hall way of his home at 23 Fleet street, North End, at 7:30 last night, James De Fazio, 55, was shot four times by an unknown person. He died in a few minutes at the Relief hospital.

The killing of De Fazio is another of a series of murders, most of them as yet unsolved, which have occurred in the North End district in the past several months, leading to the belief among the police and others that a secret society feud is on in that district.

In this case, as in others, the police have little to work on for a motive. The shooting was evidently planned and De Fazio followed to his home from the house of friends where he had spent the afternoon.

The murdered man was the father of five children and is also survived by his wife. At their home last night, Mrs. De Fazio was prosstrated with grief, and her children, Louis, 11; Joseph, 9; Mary, 8; Catherine, 3, and Peter, 7 months, were being taken care of by friends and relatives.

Three Men Detained  
At the Hanover street station three men were held pending an investigation by the police, although none of them is believed by the police to have fired the shots. They are Salvatore Zucco of Tilton street, Joseph Capelle and Filippo Vella, both of Salem street. All are held as suspicious persons.

Because of the popularity of the victim, the fact that the murder was carried out in such a cold blooded manner and that it was one of a series of such crimes, great excitement was caused in the district. A large crowd gathered outside the De Fazio home.

The cries of the grief-stricken wife could be plainly heard, and the rooms of the humble home were crowded with friends, trying to obtain some clue to the identity of the slayer and to console with Mrs. De Fazio. It was necessary to send extra officers into the neighborhood to preserve order.

The best information obtained by the police officers working on the case last night was that a "young man, dressed in a brown suit," had done the shooting. A man garbed in this manner had been observed following De Fazio into the hallway of his home just before the sound of the shots rang out and had later been seen running away from the scene.

Oldest Child Just Ahead of Father  
Louis, the oldest of the children, who was just ahead of his father in the hallway, told the police he had seen the man, but could not furnish his name.

It is claimed that following the shooting the assailant ran from the house into Fleet street, thence to Lewis street, to Menn street, and finally into North street, where all traces of him was lost.

Six shots were fired by the assassin, four of them striking De Fazio. Two bullets were imbedded in the walls of the hallway.

Patrolmen Kenny and Finn of the Hanover street station, who were on the scene a few minutes after the shooting, took De Fazio to the hospital in the police ambulance, but they were unable to ascertain any motive for the crime.

They state that when De Fazio on his way home passed a crowd of young men standing at North Bennett and Hanover streets one of the crowd left and followed him, and it is believed it was the man who fired the shot.

## Boys Find Skeleton of Man

BIDDEFORD, Me., Sept. 26.—The skeleton of Melvin Kimball, an aged resident of Saco, was found Sunday afternoon by two boys in the North Saco Heath, where he disappeared two years ago. Identification was made through a bottle and dinner pail which he carried on a cranberry trip, at the time of his disappearance.

## CLASSES AT MASS. MILLS

Plan for Continuation Work  
Under Way—University  
Extension Classes

The continuation classes under the auspices of the Women's Industrial club of the Massachusetts, which were conducted with great success last fall and winter, will be resumed this week and continued until the latter part of December. The classes will include millinery and dressmaking and later domestic science will be taken up.

On Wednesday night of this week the millinery classes will open in the quarters of the club in one of the mill buildings and will continue every Wednesday evening until the latter part of December. These classes will be under the personal direction of Miss Benoit. On Oct. 3 the dressmaking classes will be resumed under the direction of Miss Sara Lyon. These classes will be held every Monday night until Christmas week. It is also proposed to conduct a fancy bag making class in November, this work to be under the direction of Miss Benoit of the Vocational school. As soon as it is possible a class in university extension courses which will include elementary accounting will be started and conducted. The instructor for this course will be named later. The registration for the millinery and dressmaking classes is by far better than was expected and inasmuch as each class can accommodate but 20 young women, it is said there will be a waiting list.

Employees of the spinning department of the mill are making arrangements for the first season department dance, which will be held in the quarters of the club Friday evening, Sept. 30. A special entertainment will be given by talent of the mill, while music for dancing will be furnished by the mill orchestra of five pieces. The committee in charge of arrangements consists of Overseer John Cheatham, J. M. Bowen, James Ryan, Patrick Nevin, W. H. Matthews, P. McLaughlin and W. Wilson.

The athletic association of the mill, acting jointly with the Women's Industrial club is preparing a minstrel show and dance to be given in the quarters on the evening of Oct. 14. The affair is in charge of a committee headed by Thomas Grogan.

FOR EVENING CLASSES  
AT LINCOLN SCHOOL

With the purpose of providing a place for residents of the vicinity to receive instruction in English, oral and written, arithmetic and other elementary subjects necessary for entrance into evening high school, and the civil service positions in the lower grades, also dressmaking and millinery and home nursing for women, workers are striving to have the Abraham Lincoln grammar school opened evenings this winter. They are assured that if sufficient interest is shown, they can succeed in their mission. Therefore, they invite all people interested regardless of age, especially foreign born of all ages, to come to the Lincoln school tonight between 7 and 8 p. m. to obtain information and to register their names to secure the evening school, which would be such a great convenience for those who must attend or those who come voluntarily. 20 names for each class in English and elementary subjects must be obtained. While 16 must be had to start the work in the millinery and dressmaking. Registration must be made, if possible, tonight.

EVENING HIGH  
SCHOOL REGISTRATION

Registration for admittance to the Lowell evening high school will be resumed at the school office in Kirk street this evening at 7 o'clock. Both new and former students may register either tonight, Tuesday night, Thursday night or Friday night between 7 and 9 o'clock. The school opens Monday, Oct. 4.

BRYAN TAKES A HAND,  
DEFENDS BEER BILL

WASHINGTON, Sept. 26.—Formal declaration of a truce in the senate fight over the anti-beer bill and its search and seizure clause is expected today. Suspension of hostilities is to last a few weeks, according to the present outlook, or until the senate disposes of the tax revision bill and the German, Austrian and Hungarian peace treaties.

When the beer bill was called up today, Sen. Bryan, of Ohio, in a beer measure, planned to give way with announcement of his understanding that the "dry" bill shall be given right of way after action on the measure and the treaties.

Meanwhile, the treasury department is counted on by leaders to withhold regulations permitting manufacture and physicians' prescriptions of beer. William J. Bryan, yesterday intervened in the fight by issuing a statement denouncing the alleged filibuster against it.

"A filibuster by a minority," said Mr. Bryan, who has been conferring with proponents of the bill at the capitol, "to prevent the enforcement of a constitutional provision is about as unconstitutional a procedure as could be imagined, especially a constitutional provision which outlaws a criminal traffic."

Mr. Bryan commended the search and seizure clause in the conference report. Search warrants for private dwellings should be required, he said, but automobiles, he declared, should be subject to search without warrants.

"To require a warrant before searching a suspected automobile," said Mr. Bryan, "would practically nullify the law. The auto could get into another county before a warrant could be secured. It is inconceivable that any senator can be deceived by the mock heroics of the wets."

## CATHOLIC NEWS

The annual collection for the diocesan charities will be taken up in all the local Catholic churches next Sunday. Two Lowell charitable institutions, St. Peter's orphanage and the French-American orphanage, will benefit by the collection.

Members of the Junior Holy Name society of St. Patrick's church received communion at the 8:30 o'clock mass yesterday. Large numbers of the faithful received communion at the 7 o'clock mass celebrated by the pastor, Rt. William O'Brien, P.R. The Holy Name society of St. Michael's will receive communion in a body next Sunday.

The senior branch of the Children of Mary sodality and the Junior Holy Name society received communion at the 8 o'clock mass at the Immaculate Conception church yesterday.

At the 8 o'clock mass at St. Peter's church members of the Children of Mary sodality received communion. Rev. Francis L. Shea was the celebrant and Rev. Peter T. Linehan assisted in giving communion. October devotionals will open in this church next Saturday evening.

The feast of St. Michael will be observed at St. Michael's church next Thursday with a mass at 8 o'clock. The children of the parish will attend in a body. On Sunday, October 9, a collection will be taken up in this parish for the new school fund.

The children of Mary of the Sacred Heart parish received communion at the 7:30 o'clock mass at the Sacred Heart church yesterday. Rev. William McFadden, O.M.I., was the celebrant.

The early mass at St. Margaret's church yesterday was celebrated by Rev. Fr. Deane. After the mass by Rev. Charles J. Galligan, the pastor. Rev. Stephen G. Murray celebrated the 9 o'clock mass. Rev. John Hogan celebrated the early mass at St. Columba's and Rev. Fr. Somers the late mass.

LOWLY CORN COB  
RISES TO DIGNITY

WASHINGTON, Sept. 26.—The lowly corn cob has risen to the dignity of a valuable by-product. It now holds an important place in the chemical world, because of a popular derivative. In experimenting with the corn cob, experts in the department of agriculture found that it contained a paste that could be utilized as a binder in the manufacture of paper board and wall board. The residue left after the paste had been made was found to contain approximately 10 per cent of high-grade furfural, one of the basic needs in the manufacture of coal tar products, ranging from dyestuffs to photographic laboratory materials.

Before the world war Germany had a monopoly on furfural and demanded \$25 a pound for the derivative. America can make corn from the corn cob for a more reasonable price.

SOCIALIST SCHOOL  
TO DEFY LAW

NEW YORK, Sept. 26.—The Socialist Rand school of Social Science was scheduled to open here today in defiance of a new state law requiring inspectors in all private schools to obtain licenses.

Algeron Lee, director of the school, characterizing the law "an attempt at un-American censorship," declared he stood ready to accept the 60-day jail penalty provided for its violation, rather than submit to it.

Four members of the board of directors of the American Socialist society which governs the school, resigned yesterday following adoption by the board of a resolution affirming adherence to the position of the socialist party which refused to sanction the program adopted by the Third International at Moscow last July. They indicated they would join the communist party.

**DATES BACK TO 2500 B. C.**

PHILADELPHIA, Sept. 26.—Preliminary drifts through the citadel of the ancient city of Beth-Shan in northern Palestine have resulted in cutting through in one place the strata of seven or eight cities and have reached the pre-Semitic period of about 2500 B.C. Dr. Clarence S. Fisher, head of the University of Pennsylvania Museum's Palestine expedition, reported in a letter made public today by the museum.

Dr. Fisher reports the site one of the most promising for archaeological research he has ever found in the Near East and said he expects the excavations to throw much light not only on Biblical times, but on those more than a thousand years before Abraham.

## Adventures of the Twins

A FAVOR

ALL THE SHRIMPS AND PRAWNS STREAMED OUT INTO THE SEA

Nick had an idea. He had been thinking hard all the time that Mr. Flatfish Flounder was talking about losing his fine dinner in the fish net. He spoke up now. "Very well, Mr. Flounder, you may have your dinner, but you'll have to get it for yourself. Cap'n Pennywinkle only wants the net anyway. I didn't know that it was so full of things."

Thereupon Nick suddenly released his hold upon the fish net and all the shrimps and prawns and crabs, and the rest of them, streamed out into the sea. And you may be sure that it didn't take them a day and a half to get out of that. Off they skidded in all directions, calling their thanks to the twins over their shoulders, while old greedy Mr. Flatfish swam round fashing his tail in a fury.

"Here, now!" he cried, "just see what you've done! You've ruined my luncheon completely. Didn't you know that the net you are taking away with you is my dining room? I know with you is my dining room? I know

how to get into it and how to get out and three times a day I go and feast on Mr. Flatfish's catch. What shall I do now?"

"You'll have to hunt your dinner," said Nancy, calmly. "And I think you ought to thank us, for some time sooner or later, Mr. Flatfish would have hauled you in when you weren't looking, and that would have been the end of you."

"Oh," said Mr. Flounder, "I'm not good to eat. Mr. Fisherman doesn't want me, you may be sure."

"Perhaps they'd put you in a glass case for folks to stare at," suggested Nick.

But Mr. Flounder swam away without replying, wiggling his whiskers in contempt.

The twins took the net to Cap'n Pennywinkle, glad that they had been able to do the shrimps and prawns a favor.

## TO CALL ON HARDING

Ledoux on Way to Washington to "Sit on Threshold of White House"

NEW YORK, Sept. 25.—Urban Ledoux, champion of the unemployed, was on his way to Washington today to "sit on the threshold of the White House" until he persuaded President Harding to publish a list of 100 per cent war profiteers, with a demand that they contribute half their gains for constructive welfare work.

Whether he actually planned to camp on the president's doorstep, or was speaking in a figurative sense, Ledoux did not make clear.

Ledoux brought his efforts in New York to a close last night with a "community sing" in Central park.

KIMBALL SYSTEM  
EMPLOYEES' OUTING

The employees of the Kimball system enjoyed their annual outing at the grounds of the Genoa club in Tyngsboro Saturday afternoon. There was a large attendance and all present spent a most enjoyable afternoon. Ledoux arriving at the grounds the curious ones were served a buffet luncheon and later a ball game was played between teams composed of members of the commercial and advertising departments, the latter winning by a score of 10 to 11. Commissioner Salmon acted the part of umpire. At the close of the ball game a chicken bake was served and later sports events were held, the winners being as follows: 100-yard dash, Carl Engel, first and Raymond Gates, second; running broad jump, Carl Engel, first and Freeman Mumford, second; floor race, Fred Robinson, first and Charles Major and Tom Salmon, tie for second; cigar race, Richard Magrath, first and Fred Manchester, second. The affair was in charge of Rudolph Lefebvre and Dick Magrath.

THREE DIE IN  
BELFAST RIOTS

BELFAST, Sept. 25.—(By the Associated Press)—Two persons were killed and 36 wounded in rioting here Saturday night during which bombs were thrown. Two children playing in the streets and a girl were fatally wounded by stray bullets during the affray.

The girl was wounded when the police and military fired on crowds of people in Seaforth street.

Eighteen of the persons wounded were taken to the Victoria hospital and the other 18 to the Women's hospital.

During the fighting a saloon was burned. One bomb was thrown in the Millwater road, which is outside the area that has been concerned in the rioting. Six persons were wounded here, two of them seriously.

One version of the earlier bombing in East Belfast is that a Unionist crowd threw a bomb into a combination liquor and grocery store in order to set it on fire, and that while they were carrying out the operation they were made the target for a republican bomb.

Military reinforcements arrived in Belfast yesterday afternoon and vigorous measures to quell the disturbances are expected.

The wounded girl died last night, making the total of deaths yesterday three.

Sinn Feiners Roughly Handled  
CORK, Sept. 26.—(By the Associated Press)—According to reports made by republican liaison officers, incidents occurred Saturday night and early yesterday morning reminiscent of the conditions that prevailed prior to the signing of the truce.

A party of citizens returning from a social gathering is reported to have been halted in McCurtain street and roughly treated by members of the British constabulary. At the same hour, according to the reports, a police patrol of five men was accosted on St. Patrick's bridge by a large patrol of British soldiers.

The republicans are alleged to have been questioned and called "Irish swine" and assaulted with batons and revolver-bullets. One man was stabbed in the arm with a bayonet, necessitating treatment in a hospital.

DR. NANSEN DENIES  
RESIGNATION

GENEVA, Sept. 25.—(By the Associated Press)—Reports in circulation here this forenoon that Dr. Fridtjof Nansen of Norway had resigned as commissioner for Russian relief of the International Red Cross because of what he deemed the unfavorable attitude towards his work taken by a sub-commission of the League of Nations, were later denied by Dr. Nansen himself. He said he had decided not to resign, but to fight out the question in the full commission and then, if necessary, in the assembly of the league.

The sub-commission to whose action Dr. Nansen took exception, decided not to ask the assembly to appeal to the nations of the world for funds to feed Russia, as requested by Dr. Nansen.

Dr. Matta of Switzerland, explained that the commission took the action it did because it considered the allied conference to meet in Brussels Oct. 6 to consider Russian relief was the proper body to take up the appeal to the world.

## Gen. Pershing Visits Battlefields

CHAMOUNT, France, Sept. 26.—General John J. Pershing, who spent Sunday at this town, which was his headquarters during the world war, left for Romagne at 11 o'clock this morning. ## Order Restored In Belfast, Ireland

BELFAST, Sept. 26.—(By the Associated Press)—Belfast was quiet this morning, a half dozen shots fired on the Newtown road being the only outward indications of the excited feeling aroused by the disturbances of Sunday night, in which several bombs were thrown, three persons being killed and some two score wounded during the rioting. Fears were expressed, however, that there would be action in reprisal for the bomb throwing and the resulting deaths unless the military took vigorous action to suppress disorderly tendencies.

## Demand Japan Fix Withdrawal Date

TOKIO, Sept. 26.—(By the Associated Press)—Delegates of the Far Eastern republic engaged in the conference with Japanese representatives at Dairen are insisting that Japan fix a definite date for withdrawing her troops from Siberia. The Japanese delegates, however, hold that while this country is disposed to evacuate eastern Siberia, it does not desire to make its withdrawal conditional upon a treaty with the Far Eastern republic.

## MASSACHUSETTS MILL CLUB

A successful outing under the auspices of the Massachusetts Mills Educational and Social club was held Saturday afternoon at the Martin Luther grounds in Tyngsboro. The affair was attended by about 40 members of the club, who made the trip to the grounds in automobile trucks and private machines. In the course of the afternoon a program of sports was carried out. In the soccer games Capt. Eldridge's team defeated Capt. Potter's quintet, while the team in charge of Capt. Rostrom won over the aggregation headed by Capt. Boyle. A feature of the soccer games was the match between teams captained by Mr. Stewart and Mr. A. H. Eldridge, the former winning the contest. In the latter part of the afternoon a clambake was served. The committee in charge consisted of O. Webster, Robert Rostrom, Patrick Nevin and James Bowen.

# Mohardt Will Fill Shoes of Gipp, Dead Notre Dame Star

GEORGE GIPP (LEFT), DEAD NOTRE DAME GRIDDER, ON LAST YEAR'S ALL-AMERICAN TEAM, AND (RIGHT) JOHN MOHARDT, PICKED TO REPLACE HIM.

By N.E.A. Service  
SOUTH BEND, Ind., Sept. 26.—Last fall every football fan mourned the death of George Gipp, Notre Dame star, picked for fullback on Walter Camp's mythical All-American. His brilliant prowess will never be duplicated, said the fans. Yet Coach Rockne, the man who developed Gipp, says he has a chap who will capably fill the shoes of the deceased star. It is none other than Johnny Mohardt, who teamed with Gipp last year.

While Mohardt will not be the all-around player that Gipp was, he will still be a football star before the season is over. Rockne, who coached Gipp, says he has a chap who will capably fill the shoes of the deceased star. It is none other than Johnny Mohardt, who teamed with Gipp last year.

Overcomes Mistake  
"When it comes to speed in carrying the ball, shifty running and courtship, Mohardt is everything which made the great Gipp. I believe with the right coaching, Mohardt will surpass Gipp."

## RUTH AND MEUSEL STAR SLUGGING DUO

In Babe Ruth and Bob Meusel the New York Yankees probably have the greatest slugger pair who ever played on one team at the same time. To keep arguments out of it, it was eliminated the old timers for there are many today who still stick to the hairy faced players as being supreme in everything.

With his home run drive yesterday Meusel went into a tie for second place honors with Williams of the Browns, each having hit 24 home runs this season. Meusel is paired with Ruth and his great record. Any day that can be made out nearly 40 home runs in a season is in a class by itself. Williams, Sam Crawford and Ty Cobb made a powerful pair for any pitcher to face when they were taking care of the outfield territory for Detroit a few years back. Detroit now has its Cobb and Harry Heilmann, both great hitters still.

Cleveland boasted of Nap, Lajoie and Joe Jackson at one time while St. Louis now has its George Sisler and Baby Doll Jacobson. Home Run Baker and Eddie Collins used to be a handy pair with the mace playing for the Athletics while Pittsburgh had Huns Wagner and Fred Clarke. But put them all together in a pile, be given a choice of any of the above named teams and Ruth and Meusel would always be drawn from the heap first.

# BROADEN ENGLISH PITTSFIELD WINS FLAG IN EASTERN LEAGUE DECATHLON CHAMP.

NEW YORK, Sept. 25.—An English intercollegiate athletic association and frequent international intercollegiate contests may result from the recent visit of the captain of the Oxford-Cambridge track team, which competed against Harvard and Yale and Princeton and Cornell, who outlined his plans for broadening of English college athletics previous to sailing for his home.

Rudd said he hoped to develop a British intercollegiate body modeled along the lines of the American I.C.A.A.A. While there are not as many institutions to draw from as in America, there are more than 20 colleges and universities in England, Scotland and Wales. It is Rudd's idea to combine them with those of Ireland into a centrally governed association, holding annual championship games in addition to the four great events of which the Oxford-Cambridge meet is the most noted.

Rudd said he hoped and expected that once this organization was firmly established, it would be possible to hold annual or biannual intercollegiate games with the winners of the I.C.A.A.A. championships.

It is not unlikely that Rudd will make an effort to further stimulate the present friendship existing between the undergraduate and alumni athletes and the leading colleges of the two countries. England will be the scene of an international meet next summer.

In this connection a novel suggestion was advanced that a set of games be arranged in which teams representing Oxford and Princeton compete at the Queens club, London, against the combined athletic forces of Cambridge and Cornell. Rowing association has invited the winner of the Oxford-Cambridge boat race next March to compete at the Poughkeepsie regatta in June. Rudd said that if the question of a suitable date could be arranged, he thought an English crew on the Hudson was more than a possibility.

NEW YORK, Sept. 25.—The Eastern intercollegiate athletic association won the second time in three years. The team played consistent ball all the season and won the flag in the last two weeks by taking six straight games from its nearest rival, Worcester.

At Hartford, loaned to the team by the Boston Braves, and Clifford Best, who was with the Red Sox last spring, did some fine pitching for the champions, as did Snover and Hummer. The team hit the ball hard all season. Manager Walter Hammond proved a most capable pilot all the season.

The New Haven team, managed by Clifford Best, won the pennant in 1920, finished fourth.

The season opened April 27, and by May 15, Bridgeport had opened a three-game lead, Pittsfield then being in first place. Bridgeport continued to lead, close pressed by Hartford, until June 3, when Worcester and Hartford both passed Bridgeport.

Worcester took its turn at setting the pace until June 13, when Hartford went to the fore, Pittsfield, which had been in fifth place, moving up to fourth and getting closer to the lead. Hartford, which was always made its bid June 19, holding the lead for one day, and then Worcester resumed the lead, which it held until July 8, when Bridgeport again went out to front, retaining its lead until June 31, when Pittsfield, which had been moving up rapidly, took the lead.

Bridgeport left for a brief period in the two countries. Hartford was close to the top and assumed the lead for good Aug. 5, holding it until the finish, with Worcester the runner-up. Hartford finished in the last half of the season, finishing first in the field, Waterbury and Albany were never in the fight.

## PLAYERS ASSIGNED FOR POLO LEAGUE TEAMS

PROVIDENCE, Sept. 26.—At a meeting of the American Roller Polo league here yesterday it was definitely decided to open the season on October 15 at the Polo Grounds in New York. Players were assigned and playing dates arranged.

These were settled upon with the possible exception of Lawrence, who with Portland and Worcester, had voted into the league. The makeup of the polo league will comprise Lowell, New Bedford, Worcester, Portland, Providence, Woonsocket and Lawrence.

The assignment of players was made as follows:

Lowell: Davies, Alexander, Quigley, Morrill, Blount, Brown, Duggan, Willey, Dufresne, Cusick and P. Welch.

Worcester: Thompson, Force, Hardy, Donahue, Hart, St. Aubin, Harold, Doherty and Huffer.

Salem: K. Williams, Houchard, Jean, McArthur and Pence.

Portland: Lyons and Pierce.

Woonsocket: R. Williams, T. Welch, Belknap, Asquith and Conley.

Lawrence: Harkins, G. Hart, Griffith, Foley and Loverson.

The playing dates at home were assigned as follows: Lowell, Tuesdays and Fridays; New Bedford, Tuesdays and Fridays; Worcester, Mondays and Saturdays; Woonsocket, Mondays and Saturdays; Worcester, Wednesdays and Thursdays; Portland, Mondays and Thursdays; Salem, Tuesdays and Fridays; Worcester, Wednesdays and Thursdays. Lawrence has not been assigned its home playing dates as yet. Lawrence will play in the rink at City Hall in that city.

## COLLEGE FOOTBALL NOW IN LIMELIGHT

NEW YORK, Sept. 25.—The curtain having been raised on college football in the east, west and the south, the squads resumed their practice today in preparation for next Saturday's battles.

The majority of the stronger Eastern eleven rolled up good scores in the opening struggles against their opponents. Of the so-called "big three," Yale and Harvard had the usual first game successes, the latter even winning a double header from Boston University and Princeton. Yale defeated Bates 25 to 0. Princeton will get into its action next Saturday with Swarthmore as opponents.

Cornell also will open its season at Ithaca, opposing St. Bonaventure college, which Saturday tied Colgate, 7 to 7. Syracuse which defeated Hobart handily, 35 to 0 in the first game of the Orange schedule, will meet Ohio University, Cincinnati, Monday.

Fordham, Rutgers and other eastern eleven which won their games Saturday, are preparing for harder games in the next few weeks.

Pittsburgh, Penn. State and Pennsylvania, the leading teams of the Keystone state, won easy victories Saturday, the last named eleven rolled up a 63 to 0 score against Delaware.

In the midwest, Notre Dame made a good start toward a successful season with a one-sided victory over Chicago, 40 to 0. Indiana, later to meet Harvard at Cambridge, walloped Franklin 47 to 0.

The army squad is hard at work at West Point for a double bill next Saturday with New Hampshire and Springfield against them. The other service team, the navy will meet North Carolina.

## TILDEN BEATEN IN SPECTACULAR MATCH

CHICAGO, Sept. 25.—William Tilden, 2nd, national tennis champion, lost the deciding match of the East-West championship series yesterday to Australia in one of the most spectacular matches ever seen in Chicago.

The match not only went the full length of five sets, but a percentage of 717. Rochester with a percentage of 590, was second.

FOOTBALL PRACTICE AT NIGHT  
SPATH COLLEGE, Pa. Sept. 26.—Four huge arc lights with brilliant reflectors have been erected at the side of the practice gridiron on Spath college campus, to enable the Penn state football squad to hold workouts at night.

## BALTIMORE WINS LEAGUE PENNANT

NEW YORK, Sept. 26.—The intercollegiate league concluded its 1921 schedule yesterday with Baltimore in first place. Baltimore ran away with the pennant, finishing with 113 victories in 140 games, a percentage of .807. Rochester with a percentage of .717, was second.

# Urges Japan to Demand "Open Door"

TOKIO, Sept. 26.—Any attempt by the powers to discuss limitation of armaments at Washington, while fostering secret ambitions will prove worse than useless, it is declared in resolutions adopted by an association of politicians, publicists and business men which was formed for the purpose of studying questions relative to the Pacific. Recommendation is made that as a basis of the Japanese policy this country should maintain adherence to the plan of the "open door" on an international basis, refrain from all interference in Chinese, Siberian and Mexican affairs, and advocate disarmament as far as possible.

# Impressive Military Ceremonies Mark Funeral of Private Edward T. Gillis

PART OF THE MILITARY PROCESSION ON WAY TO IMMACULATE CONCEPTION CHURCH

One of the most impressive and largely attended military funerals ever held in Lowell took place yesterday afternoon when the body of Private Edward T. Gillis, who was killed in Belleau Wood, France, in the fall of 1918, was tenderly consigned to its final resting place in the family lot in St. Patrick's cemetery.

Seldom has there been such a turnout for an affair of this nature and inasmuch as the body of Private Gillis was one of the first of those of Belvidere heroes to arrive from France, practically every section of the large district was represented at the solemn ceremonies.

At 2 o'clock members of the various organizations which were to participate in the funeral met at the late home, 58 Pleasant street. They included delegations from Lowell Post, No. 51, American Legion, Y.M.C.A., O.M.I. Cadets, Woodbine club, Zouaves of Notre Dame de Lourdes, Lisbon club, Manhattan club and the "Boys of Belvidere." The flag-draped casket was taken from the house by the following: Robert E. Smart, Patrick James Watson, Daniel T. Murphy, Charles Bernard, James Flannery, Timothy F. Lynch, Francis Coughlin, and James T. Sullivan. It was placed on a pedestal in the middle of the street and the various societies then passed by while the United States band played Chopin's funeral march. Led by Maj. James J. Powers, commander of the local post of the American Legion, the procession moved down Pleasant street, thence to High, Bartlett and Fayette streets to the Immaculate Conception church. The casket was carried on a caisson drawn by four horses. The procession was headed by a detachment from Battery B and the headquarters and detachment train commanded by First Sgt. Charles J. Keyes. The men were mounted.

The spacious edifice of the Immaculate Conception church was filled to capacity while Rev. Denis A. Sullivan, O.M.I., chaplain of the O.M.I. Cadets, assisted by Rev. Owen P. McQuaid, O.M.I., read prayers. Present within the sanctuary were Very Rev. Lawrence P. Tighe, O.M.I., Very Rev. T. Wade Smith, O.M.I., Rev. Patrick J. Phelan, O.M.I., and Rev. Arthur

Conners, O.M.I. The members of the various organizations, most of them in uniform, occupied reserved seats in the center aisle. Practically every walk of life was represented in the large number who attended the services and among them were representatives of the state and municipal governments.

At the grave Rev. Fr. Sullivan, O.M.I., assisted by Rev. Fr. McQuaid, O.M.I., read the committal prayers. The band then played "The March of the Legionnaires." The casket was followed by three volleys over the grave fired by the following firing squad under command of Eli H. Hart: Frank Hotchkiss, David Sullivan, John Connors, George Walsh, Harry P. Cooke, James W. Harrow, Frank J. Merritt and John J. Thyme. "Taps" was then sounded by Musician William Carl and the echo was given by Musician Emile Lamoureux. The Ladies' auxiliary of the American Legion was represented at the funeral by Mrs. Brick, Mrs. G. Robbins, Mrs. H. Lee and Mrs. Charles S. Young. The funeral arrangements were under the general supervision of Undertakers James F. O'Donnell & Sons.

## Penn. R. R. Men Send Protest

CHICAGO, Sept. 26.—Representatives of the Pennsylvania railroad presented a letter to the United States railroad labor board today denying the right of the board "to enter the realm of management" and stating that "in view of the fact it would not discuss any of the three points the board allowed it to discuss" it would not present oral argument. The board accepted the letter and announced it would give a decision at a later date.

## Boland Optimistic Over Settlement

DUBLIN, Sept. 26.—(By the Associated Press)—Harry J. Boland, who has been an active participant in the Sinn Féin councils since his arrival from New York in August, expressed optimism today over the prospects for an Irish settlement. The speech of Winston Spencer Churchill, secretary for the colonies in Dundee, last Saturday had increased his hopefulness, he indicated. Mr. Boland will sail for New York next Saturday.

## Missing Boat Towed Into Port

NEW YORK, Sept. 26.—While police boats were seeking the gasoline cruiser Myrtle, which went to the fishing banks near Ambrose channel yesterday and failed to return, the craft was towed into port today by a motor launch. Captain John Heaney, owner of the cruiser, and eight fishermen were aboard.

## BAY STATE PEOPLE BEST BRIEF BUT IMPORTANT MONEY SAVERS WIRE DESPATCHES

NEW YORK, Sept. 26.—The people of Massachusetts are the thriftiest in the United States.

Statistics gathered through the country by John L. Puley, president of the Emigrant Industrial Savings bank here, in connection with the work of the national conference of mutual savings banks to encourage thrift, showed that in a population of 2,522,358 the Bay State has 2,532,337 savings bank depositors, or 57 per cent.

The figures showed that the saving habit throughout New England was more pronounced than elsewhere in the land. Indiana, with a population of 2,520,444, had only 2,243,450 depositors, or 57 per cent.

Other percentages given were: Connecticut, 54 per cent; Maine, 31 per cent; New Hampshire, 35 per cent; Vermont, 32 per cent; Rhode Island, 21 per cent; New York, 35 per cent; Delaware, 30 per cent.

In many other states the showing was poor, Wisconsin having 5 per cent; West Virginia, 4 per cent; California, 34 per cent; Pennsylvania, 6 and Ohio, 12 per cent.

The national conference represents 62 mutual savings institutions in 35 states.

WASHINGTON, Sept. 26.—George White, national democratic chairman, conferred with democratic senators here today. He declined to comment on the situation, but it was understood he believed a majority of democratic senators would favor ratification.

INDIANAPOLIS, Ind., Sept. 26.—Effects of supporters of Alexander Howat, president of the Kansas Miners, to force a vote in the convention of the United Mine Workers of America on President John L. Lewis' recommendation that Howat be required to order strikers back to work, was blocked today by Vice President Murray, who as presiding officer declared he would not permit the convention to be stampeded into making its decision.

## SUDDEN DEATH OF MRS. MARY FOX

Mrs. Mary Fox, aged 45, found dead in her home, 50 Newhall street, shortly after 8 o'clock last evening, died of heart trouble. Medical Examiner Thomas B. Smith, announced today after conducting an examination.

The woman, who was a widow, and living with a legally adopted son, William A. Fox, was found stretched on the bed by neighbors who went to visit her after she had complained during the afternoon of feeling ill.

Dr. C. L. Swett, who was immediately summoned but was too late and pronounced the woman dead. It was believed that she died of heart trouble.

Mrs. Fox was well known in the Sacred Heart parish where she had resided for many years. Besides the son, she is survived by two brothers, Patrick J. and Thomas F. Morris.

WASHINGTON, Sept. 26.—The anti-herb bill today was withdrawn formally in the senate, probably for several weeks and until after disposal of the tax revision measure and the peace treaties with Germany, Austria and Hungary.

## STOCK MARKET

The following is a complete report, giving high, low and closing quotations:

NEW YORK, Sept. 26.—The strength of calls imparted a steady tone to the stock market at the outset of today's trading but reactions set in almost immediately on further offerings of foreign oils. Royal Dutch, which unsettled last Saturday's session, opened at a moderate recovery but soon dropped 1 1/2 points. Mexican Petroleum fell 3/4 and equipments, motors and oil companies, also gave way. A new low record for marks at 6.25 to 6.35 directed renewed attention to Germany's unstable economic status.

In the course of the early reversal, however, Harvester, Sears, Roebuck, U. S. Rubber and Sumatra Tobacco lost 1 to 3 points. The first rally of the morning was led by steels and computers, followed by chemicals, leather, motor specialties and utilities. U. S. Steel's advance of one point lifted that stock to its highest quotation for the current movement. Regardless of further favorable sentiment, earnings for August, high grade rails were apathetic, but junior shares, including high grade Valley and Colorado Southern last preferred registered one point gains. Call money opened at 5 per cent.

Trading shifted to special stocks during the dull mid-session. Corn Products, Food Products, Beach, Magway, Associated Dry Goods and American Ice were 1 to 2 points higher. Leaders displayed further irregularity with Mexican Petroleum as the center of another reaction.

Such leaders as Mexican Petroleum, Baldwin Locomotive, Reading and Northern Pacific were under great pressure. Mexican Petroleum was down 1 to 3 points. The close was heavy. Bonds were steady with Liberty issues as the foremost features.

NEW YORK, Sept. 26.—Cotton futures opened steady, Oct. 19.75; Dec. 20.20; Jan. 20.21; March 19.85; May 19.75.

# MISS MILDRED HANAN DIES OF WOUNDS

NEW YORK, Sept. 26.—Miss Mildred Hanan, daughter of the late Alfred P. Hanan, shoe manufacturer, died in the Long Island College hospital early yesterday without having advanced any explanation as to why she had been shot Friday morning by her erstwhile chum, Mrs. Grace Laws, who later committed suicide.

John S. Borland, importer and Dartmouth graduate, who was in her company when the shooting took place outside the apartment of a mutual friend in Brooklyn, was at her bedside when she came at 4 o'clock this morning. Mrs. Hanan's relatives also were present, but the girl, who had lapsed into unconsciousness shortly after midnight, did not recognize any of them.

One blood transfusion, made Friday night, to save her life, seemed to give her additional strength and led the physicians to hold out hope for her recovery, but a relapse set in Saturday evening and she died rapidly.

The real motive for the shooting may never be publicly known. Police who investigated the case expressed the theory that jealousy was a contributing factor, but they were unable to determine whether it was because of her or because of the severance of Mrs. Laws' friendly relations with Miss Hanan. Borland told the police that the shooting was a result of having lost the friendship and financial assistance of Miss Hanan. He also expressed the belief that this was followed by excessive drinking, which Mrs. Laws admitted in a letter to her sister in San Francisco found among her possessions after her death.

**ADOPTS "U. S. SYSTEM"**  
LONDON, September 26.—Children brought up at the new children's court at Lambeth town hall, Britain, will have the American system of punishment dealt out to them, except in the case of a child under 10 years of age. For stealing apples he fined four boys 30 cents each.

**THURNS, LOSSES \$1000**  
SIAMANGAL, Sept. 26.—Captain C. C. Williams of the Steamer Woonung, put his handbag with \$2000 on the counter of a hotel in Siamangal, and turned to speak to the teller. When he picked up the bag, he noticed \$1000 was gone. Jan Norvak was found with the money.

THE ECONOMIC WEAPON

Methods of Applying it  
Against Violators of League  
Covenant Taken Up

GENEVA, Sept. 26. (By the Associated Press.) Methods of applying the economic weapon of the League of Nations against a country which violates the provisions of the covenant of the league came before the assembly of the league this morning when the blockade committee submitted its report.

The committee found it was impossible for the league to decide before-hand and in detail the various steps of an economic, commercial and financial nature that should be taken in each case. It proposed that the council of the league make recommendations to the members as to a plan for joint action when necessary should arise.

Interruption of diplomatic relations would first be limited to the withdrawal of the heads of diplomatic missions. The committee held, however, that while consular relations might be maintained, if prolonged application of economic pressure was necessary, it should progressively be made more stringent.

In the resolutions that were proposed, provision was made that certain states might for a certain period be released from the obligation of blockading another country if the conditions were such as would involve special danger to those states.

An important question facing the assembly at the beginning of this debate was how to get action on the proposals of the committee under the rule requiring unanimity, this rule not yet having been abrogated. Lord Robert Cecil, representing the Union of South Africa, recently made a motion that the rule be suspended, but it was referred to the constitutional committee.

An effort will be made to obtain a vote on this motion before balloting begins on the resolutions regarding the blockade. It is believed that unanimity will be obtained on the resolutions.

In addition to resolutions interpreting the covenant of the league, the committee proposed an amendment to Article XVI of the covenant, which provides for united action against a state violating that agreement. The amendment follows:

"The council of the league will give an opinion whether a breach of the covenant has taken place. When the council gives such opinion, the votes of states bringing the charge whether they are members of the council under Article IV, or have been specially summoned, shall not be reckoned in determining whether or not there has been a unanimous decision."

Another proposed amendment reads: "The council may in the case of a particular member postpone the coming into force of any of these measures for a specified period when it is satisfied that such postponement will facilitate the attainment of the object of the measure to be applied, or that it is necessary in order to minimize the loss and inconvenience which will be caused such members."

This amendment is proposed to satisfy the Scandinavian member who demanded exemption from the obligation to blockade when the measure was applied to neighboring states.

Delegate Poullet of Belgium told the assembly that his delegation did not consider that the amendment would ensure that certain states to postpone blockade measures would weaken the force of Article XVI of the league covenant, dealing with action against covenant breaking members.

Senior Manin Rios of Uruguay pointed out that his country's geographical position made it impossible for Uruguay to fulfill any duty for the blockade of either Brazil or Argentina. He opposed weakening the obligations of the covenant, but he thought special circumstances should be taken into consideration.

M. Reynold of France, said he considered that some of the proposed changes weakened the economic arm of the league. Public opinion alone was insufficient to deter nations from covenant breaking he declared, and there must be an effective weapon for the immediate application of measures of an imperative character. In his view, Article XVI should not be modified.

CHICAGO, Sept. 26.—Dismissal of Chicago policemen in wholesale lots was pressed in official circles today in connection with the federal investigation of violations of the prohibition laws. Following announcement Saturday by Chief of Police Charles Fitzmorris and today is to furnish a list force of more than 5000 may be involved in liquor law violations. Chas. F. **STORE SHOW CASES**  
**ROBBED BY BOYS**  
Show case thieves were at work in this city last night judging from two complaints made at police headquarters today.

The show case of the J. A. Handley store on Merrimack street was looted early last evening of a quantity of women's articles valued at about \$15. Perfumery and vanity cases and several purses were among the things taken. The complainants told the police that two boys of about sixteen years of age committed the break.

Ervin E. Smith, hardware and paint dealer at 20 Market street, told the police today that the show case in front of his store was broken open some time between late Saturday night and this morning and a number of jack knives were stolen.
